INTRODUCTION

Our nation is in trouble. Our enemies are many and want to take down the American culture, Constitution, and the Church. We are "Decisively Engaged"; which means we are surrounded without help, so we must either stand or run from this battle for the heart of our nation. We will stand. To do that we must take the actions true Christians would take. We pray, sacrifice, and take action to expose the lies, reveal the truth, and work to make sure our national Republic is restored as it was designed to be: One Nation Under God.

You often hear the Edmund Burke quote "The only thing necessary for the triumph of evil is for good men to do nothing." That is a shortened version. Burke's entire quote is this:

Whilst men are linked together, they easily and speedily communicate the alarm of any evil design. They are enabled to fathom it with common counsel, and to oppose it with united strength. Whereas, when they lie dispersed, without concert, order, or discipline, communication is uncertain, counsel difficult, and resistance impracticable. Where men are not acquainted with each other's principles, nor experienced in each other's talents, nor at all practiced in their mutual habitudes and dispositions by joint efforts in business; no personal confidence, no friendship, no common interest, subsisting among them; it is evidently impossible that they can act a public part with uniformity, perseverance, or efficacy. In a connection, the most inconsiderable man, by adding to the weight of the whole, has his value, and his use; out of it, the greatest talents are wholly unserviceable to the public. No man, who is not inflamed by vain-glory into enthusiasm, can flatter himself that his single, unsupported, desultory, unsystematic endeavors are of power to defeat the subtle designs and united cabals of ambitious citizens. When bad men combine, the good must associate; else they will fall, one by one, an unpitied sacrifice in a contemptible struggle.

In short, as Franklin would say "We must all hang together, or ... we shall all hang separately." So together we will stand. "Hi, our names are Rich and John, we are patriots." "Hi, Rich and John." And so it begins.

Rich Higgins has gone to be with God since we started this effort. Thank God that others from Unconstrained Analytics are still in this fight.

We have truly underestimated the enemies of America and their capability to destroy our way of life by saying, *"Oh, they don't know what they're doing or they would stop."* The truth is they know exactly what they are doing and they are very good at what they do. They have a tremendous capability to wait out events and administrations of Presidents and as the Carbonari said in 1859 when they wanted to take down Catholicism and then Christianity:

"The Pope, whoever he may be, will never come to the secret societies. It is for the secret societies to come first to the Church, with the aim of winning them both. The work which we have undertaken is not the work of a day, nor of a month, nor of a year. It may last many years, a century perhaps, but in our ranks the soldier dies, and the fight continues." It was signed "Freemasonic Permanent Instruction of the Alta Vendita"

When the Carbonari folded, Marxists took up the fight using their tactics. When the USSR folded, the Maoists picked up the pieces of this concept and formed a triad of Globalists, Islamists, and Maoists all with the same goal: TAKE DOWN AMERICA.

If we are to return our culture, our Republic, and our Church back into the prominent leaders of our society, we must confront this evil both where they started and where they now are. This document, inspired by and supported in the formation of its content by Rich Higgins and his group *Unconstrained Analytics* can return our nation to its Constitutional origins. Open your minds, reject fear and be in the year 1776 again where we face a cabal of evil greater than the British army we faced to gain independence.

Thomas Jefferson said it best, *"If a nation expects to be ignorant and free, in a state of civilization, it expects what never was and never will be. The functionaries of every government have propensities to command at will the liberty and property of their constituents. There is no safe deposit for these but with the people themselves; nor can they be safe with them without information."*

It is then up to us to gain understanding, pass on the truth and stand between liberty and tyranny, so that tyranny knows that we will not now, nor will we ever yield our liberty or our rights as free men and women of the United States of America.

We must realize in this fight that our founding principles are now the counter culture. Religion, the Constitution, State's rights, and individual liberty are under attack by the very government who is called to defend them. Even so we must defend our Church, Constitution, and liberties with the love Jesus Christ called on us to give both friend and enemy alike. Because once we slip into the darkness of the hate of the leftists, it is hard to see the way back to the light. This does not mean we surrender or compromise our principles, our rights, or our Constitution; it means we fight with the truth and never surrender one inch of ground in what we believe.

DEDICATION

This book is dedicated to every patriot who has served our country, and to every pastor, priest and religious who has stayed true to the teachings of Jesus Christ and dedicated their lives to serving God and defending liberty. God bless them all.

WALKING WITH JESUS TO ETERNITY

We all know INOs (**In Name Only**). We complain about them, we see their compromise or status quo approach to life, we pretty much disregard them. They are good at talking, but not so much on taking real action that matters. Our nation has become a nation of CINOs **Christians In Name Only**. It's like the apostles on the day of Christ's crucifixion. They were willing to walk with Christ to eternity, yet all but one ran when it came time to walk with Him to the cross. It took the Holy Spirit to awaken their hearts and impart courage into their actions.

If you want to look at what has happened to our country, you first have to look at what has happened to our faith and our churches. Faith is the glue that held our Constitution and our Republic together. It is faith that guides our moral compass. But today for all too many, faith is not about sacrifice or serving God; faith is a box we check every Sunday and then move on to the next box. If we are willing to turn our backs on Jesus Christ's sacrifice and our own salvation; we are certainly willing to turn our backs on our country and what is happening to it.

For the reclamation of America to happen, we must reclaim our culture. To reclaim our culture we must turn back to God and place Him at the center of our personal lives and the heart of our nation. We must make faithfulness to God our first priority and true our country's living motto. "In God We Trust." We are all at different levels on our journey of faith. No matter what level you are now, the mercy of Jesus Christ can take you to a place that will change your life. He awaits your request for Him to show you the purpose He has for you on this earth.

"We have no government armed with power capable of contending with human passions unbridled by morality and religion . . . Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other."
-John Adams

Jesus went with Peter, John and James to the Garden to prepare Himself for the suffering and pain that was coming. Not for what He had done, but for what mankind had done. The anxiety must have been beyond the pale. But there with His Father, comforted by angels and in prayer, Jesus found peace with His coming trials. It took courage for the apostles to be with Him to stand up to the crowd at the garden. They

had walked through many gardens and roads on their journey with their teacher and Lord. Walking with Jesus in the joyful times, the wonderful evangelizing times, must have been a joy and also a tough labor of love. In the good times we are faithful and follow our Jesus. In the garden the apostles showed strength. But when the Romans came with the cross, they had to choose between Jesus or their own life, they abandoned Jesus and hid in the upper room. Later, the apostles, who were filled with the Holy Spirit, found their way back. We too can find our way back.

"The only foundation for a useful education in a republic is to be aid in religion. Without this there can be no virtue, and without virtue there can be no liberty, and liberty is the object and life of all republican governments. Without religion, I believe that learning does real mischief to the morals and principles of mankind."
-Benjamin Rush

The way back is simple: not to trust a political solution, but to embrace a Biblical solution. When in 2020, it came time to protect the Church, to defend our religious liberty, to defend our nation against Communism; politicians became collaborators with a political agenda and forced the Church to shut down and Biblical teachings to be marginalized. The reason we prevailed in the American Revolution was because the pastors and priests sought God's will. Our Founding Fathers followed the pastors lead and also sought God's will. The Church led the Revolution and fed the people with the word of God that put courage in their hearts, steel in their spines, and a new government on their minds. It was faith that saved us and it can save us again. We all know we can walk with Jesus to eternity, but will we walk with Him to the cross?

The way back is through a faith based populist movement, led by the Church, promoted from the pulpit, and reinforced in faith based schools. There is no other way to regain our culture, the Christian morals and ethics, and our soul as a people of God.

It is time to stop making excuses for not attending Church on Sunday: that priests are unfaithful, pastors don't preach the way I like, or the pulpit has become too political or too silent. We go to Church to honor and praise Jesus Christ who hung on the cross. If your priest or pastor is not faithful and teaches you falsely, then you indeed must shake the dust from your feet, from that one pulpit, but not from the Church or from God.

One of the main ways the government and secularism have undermined our culture and Constitution is by removing the Christian based morals and ethics that guided our Constitution and imbedded those unalienable rights in our culture. The government and courts have politicized the Church's teachings and sacraments by making them wards of the government. Two examples are marriage and abortion. Once the government took political jurisdiction over Church doctrine and once the Church let that

happen, the government then weaponized that doctrine in an attempt to control the Church. The courts and Maoist politicians knew they could not bring down our Constitution and form of government unless they brought down the Church first. We are not talking about making America a theocracy, we are talking about what Patrick Henry said when they formed this nation:

"It cannot be emphasized too strongly or too often that this great nation was founded, not by religionists, but by Christians; not on religions, but on the gospel of Jesus Christ. For this very reason peoples of other faiths have been afforded asylum, prosperity, and freedom of worship here." -Patrick Henry

This is the time the Church must take its place at the top of the food chain; not subservient to government, but leading it. Not forcing people to be Christians, but leading our nation based on the Gospel of Jesus Christ as Patrick Henry stated. This allows each person to use the free will that God gave us; but does not permit the Maoist counter revolution culture to dominate us. Instead of following the Constitution which is for the majority to rule, but for the minority to also have their say, our government has allowed the small minority thoughts and ideas not only to guide our laws, but to dominate the people. In doing so they are bringing down the Church and our country will soon follow. Remember, the government does not want to close the church; they want to transform it into an information platform that leads us away from God and to a new false deity called government.

The power of the pulpit, speaking the true Word of God, following Jesus Christ, and the Church unafraid to walk with Christ to the Cross is the only answer that can lead us back to our founding principles and save our nation. If the Church does not do what Jesus asked of us - to go out and evangelize the world - then it will be held accountable for the souls that are lost.

Charles Finney wrote the following in The Decay of Conscience in 1873.

"Brethren, our preaching will bear its legitimate fruits. If immorality prevails in the land, the fault is ours in a great degree. If there is a decay of conscience, the pulpit is responsible for it. If the public press lacks moral discrimination, the pulpit is responsible for it. If the church is degenerate and worldly, the pulpit is responsible for it. If the world loses its interest in religion, the pulpit is responsible for it. If Satan rules in our halls of legislation, the pulpit is responsible for it. If our politics become so corrupt that the very foundations of our government are ready to fall away, the pulpit is responsible for it. Let us not ignore this fact, my dear brethren; but let us lay it to heart, and be thoroughly awake to our responsibility in respect to the morals of this nation."

The Church and every shepherd must stop saying that the teachings of Jesus don't belong in politics. The world is God's alone, and Jesus' words and our works for Him belong in every aspect of this world, especially in the politics that would attempt to destroy His teachings.

Ezekiel 33:3-6

And if he sees the sword coming upon the land and blows the trumpet and warns the people, then if anyone who hears the sound of the trumpet does not take warning, and the sword comes and takes him away, his blood shall be upon his own head. He heard the sound of the trumpet and did not take warning; his blood shall be upon himself. But if he had taken warning, he would have saved his life. But if the watchman sees the sword coming and does not blow the trumpet, so that the people are not warned, and the sword comes and takes any one of them, that person is taken away in his iniquity, but his blood I will require at the watchman's hand.

THE SERVE GOD - DEFEND LIBERTY MOVEMENT

Our nation was formed as a republican form of government. That means a state or federal government is ruled by the people through their elected representatives. It operates by the participation of the people in communities based on subsidiarity, communities small enough so that the people closest to home accomplish what is needed, have a voice, but are still part of a larger group. That's why we have representatives and senators. That's why it's called a "republican" form of government.

As described by ConstitutingAmerica.org,

"Americans looked to their idealized and sentimentalized version of the Roman Republic with its Stoic virtues—and saw themselves: Simplicity of life, self-reliance, civic duty, and morality inculcated through education, religion, and, if necessary, law. What was true for the governed applied equally to the governors, who were selected by the former and would make law not for their self-interest or for their class or faction, but for the general good."

That is why Benjamin Franklin responded to the person who asked him what form of government the founders gave us, "A republic if you can keep it."

We have lost all of that. Although we have kept the structure of a republic we have become a warped republican form of government that is more of a socialist hierarchy hidden in the trappings (organization presence) of a republican form of governing. In other words, we did not keep the republic the founders gave us; we have poisoned that well and we are now in a tyrannical form of governance where the government becomes a dictator that uses the courts to foster unconstitutional rulings which then become *de facto* law. Both political parties are playing their parts in this false front of a government, and the divide between them is who has power not what is good for our nation. The system given by our founders is not the wrong form of government. The corruption of it by the political parties is what is wrong. That is why we have formed the **Serve God – Defend Liberty Movement**.

As stated by Constitutionamerica.org, we formed our government based on morality, religion, education, simplicity of life, self-reliance, civic duty and as a last resort, law. In other words if the virtues stated above didn't work, we would have limited law to fix what is broken. That is why the socialists/communists had to destroy all six of the virtues above and then corrupt the rule of law. Our form of government today breaks what is working and makes into law governance that has corrupted the intent of our Constitution.

Joseph Stalin explained the Communist strategy: *"America is like a healthy body and its resistance is three-fold: its patriotism, its morality and its spiritual life. If we can undermine these three areas, America will collapse from within."* That is what has been happening since the 1950s. That is why we must return our education system, our dedication to traditions of the church, and the Biblical worldview back to the moral and ethical tradition that built our nation.

Our nation was founded in faith, so our actions must also be founded in faith. Unless our country returns to the faith in God that formed our nation and made us the beacon of hope and light throughout the world, we stand no chance of returning to the virtues on which we were built. And so our first effort must be to restore our nation's trust in God and the beauty of the six virtues that formed our nation: **morality, religion, education, simplicity of life, self-reliance, civic duty**; and then restore the rule of law based on those virtues . We have but one overall mission: to **Serve God – Defend Liberty**. We each know our local situations and problems so we must apply the six founding virtues of our nation's founding principles to insure that our communities, our states and our nation return to the **One Nation Under God** that the great men and women who founded us in faith and liberty fought and died to preserve.

The **Serve God & Defend Liberty Movement** is an American faith-led populist movement that believes that God is the Creator of all and the only good moral gauge of right and wrong. This movement believes, as did our founders, that all glory belongs to God and that the liberties proclaimed in our Declaration of Independence and preserved by our Constitution are those given by God to all of mankind.

This movement represents those who believe the Constitution is the law of the land. The Bible leads the way for the Christian morality-based faith and formation of our Republic. The words the Founders used to construct the Declaration of Independence and the Constitution are based on that truth and must guide our every effort and action.

We also believe that government and fringe groups have removed faith and God from our society against the will of the majority of Americans. These same groups that

orchestrated the hate speech attacks on all things of faith, then politicized the sacraments of the church (Baptism and Marriage) to be used as weapons against people of faith. This has made us an anti-God society, driven by hate, division, and the destruction of our country's principles, morals, and ethics. That is why our nation seems down on its knees in surrender to the politically correct mob ready that is willing to destroy all that is good.

The **Serve God -Defend Liberty Movement** will work to restore the true founding principles of our nation. It is faith led because if this movement is to be true to God and the principles of our founding, it must stay on a true and faithful path.

These are the principles of the movement:

- 1) Our nation was founded on a Biblical worldview and on the morals and ethics of those teachings. As such, the Bible's principles were the guide for the writing of the Declaration of Independence and the Constitution, and the means by which our liberties are preserved, and society ordered.
- 2) The standards to be used for public policy must be the standards that follow the U.S. Constitution and rule of law. The use replacing the solid principles of our founding with the politically correct new age issue of the day; creates a system of hate, division and destruction of all principles of our founding and weakens our nation.
- 3) The politicizing of Church doctrine and the sacraments of the church by the government leads to tyranny against people of faith and is done by overriding our Constitution. This corrupts the rule of law and our society and leads to tyranny.
- 4) We are a Republic not a democracy. All those elected are done so to protect the will of the people, to safeguard our laws and society, and to preserve our rights granted under the Bill of Rights. To place our nation first is not nationalism, it's patriotism. The patriot movement in the United States does not isolate our nation but it insures we protect our people, our Constitution, our liberties, and our communities. A house in ruins cannot serve the good of anyone. As a republic, the power rests in the people and not in government.
- 5) The Judiciary was implemented to protect the law as written in the Constitution; not to create new law, not to override the rights of the States, not promote political policy. As such they are only 1/3 of the government. Each of the other two parts has the right to protect the Constitution and must not subordinate their authority or power unto the courts. As Jefferson said, ..."to allow unelected justices to rule over all other government and the people would be tyranny."
- 6) The two political parties have become a distinction without a difference. They no longer do the will of the people, and once in power and become politicians, they make laws that Congress is exempt from themselves. Each law must be for all and must state the Constitutional authority for its making. All bills that require government spending

must be submitted independently and not attached to any other bill or have any other bill attached to it.

7) The courts must also state the Constitutional authority for their rulings. If they can't, then they are illegal.

8) We the people have the right to enter our candidates in every primary. And if the present two parties refuse to place God, country, and the people first; then we should and must enter our own candidates to primary those who won't.

The **Serve God - Defend Liberty Movement** is not an organization, rather it is a coalition of groups and individuals that are working to restore our faith based culture, the six virtues of morality, Christian religion, education, simplicity of life, self-reliance, and civic duty, returning the power of our nation back into the hands of the people, and working for honest and open discussion of ideas based on facts and truth, not persecution and condemnation. John Adams, "*Facts are stubborn things, and whatever may be our wishes, our inclination, or the dictates of our passions, they cannot alter the state of facts and evidence.*" But yet, this is just what the leftists have done.

We must show our country that the Church is loyal to God, faithful until the end and here to lead and serve us; a place of faith, healing, and love. We must show by our actions what it means to be a Christian and a patriot. We must foster and promote the Gospel. With moral authority we can then enter the public arena led by the Holy Spirit to make our nation whole again. To be faith-led means our shepherds must lead us in this mission.

There will be different disciplines, with each discipline lead by the leaders in that field based not on politics but on the truths of those disciplines. For example:

Religious Liberty

The Bill of Rights protection of individual rights

Protecting Life from Conception to Natural Death

Medicine & Healthcare is between patient and doctor

Education K-20 is about education not indoctrination

Family and Parental Rights (which include Father's Rights)

Community Safety

Preserving American production and history

States Rights

and those political issues that we may select as a coalition such as:

- 1) Constitutional Liberties and Meanings
- 2) Separation of Powers
- 3) Protecting the integrity of voting.
- 4) Working with this new Populist Faith/Patriot Movement to develop Christian patriot candidates for political office, Constitution/Civics/Citizenship training materials
- 5) And other issues that impact our Church and country.

The movement structure that we will utilize is best broken into six key areas which can be leveraged for this effort:

- 1) Religion – Our Christian faith and religious liberty must be the basis of our actions and protected at all cost. The church must rally to the cause to **Serve God and Defend Liberty** and lead us in the effort.
- 2) Political – mobilizing and resourcing various individuals and groups to support these efforts; the point is to grow the movement.
- 3) Pulling together our Allies.
- 4) Attacks – how do we leverage the headwinds that are sure to come against us as we grow the movement?
- 5) Building an international component to this movement.
- 6) Nonviolent tactics – probably one of the big questions to answer is the level of “activism” this group intends to engage in. Being on the ground with the populists, led by the faith movement is going to be the key to informing events as they unfold; and to responding as Christian Patriots to the attacks on our Constitution, faith, and liberty.

The Church of Jesus Christ must cleanse itself of false prophets and shepherds and return it to the true teachings of our Savior, not a politically correct, government inspired, watered down worldly gospel; but the one true Gospel of Jesus Christ. The people must vote out those in elected office that only serve their party and not the people whom they represent. It would be a great idea to pass a law saying when Congress can't balance the budget, they must reduce their salaries by the same percentage as they over ran the budget.

If there are doubts that we are a nation formed on Christian values and principles, read the following quotes from our Founders and Mark Twain and Frederick Douglass.

George Washington 1st U.S. President

"While we are zealously performing the duties of good citizens and soldiers, we certainly ought not to be inattentive to the higher duties of religion. To the distinguished character of Patriot, it should be our highest glory to add the more distinguished character of Christian."

Thomas Jefferson 3rd U.S. President, Drafter and Signer of the Declaration of Independence

"God who gave us life gave us liberty. And can the liberties of a nation be thought secure when we have removed their only firm basis, a conviction in the minds of the people that these liberties are of the Gift of God? That they are not to be violated but with His wrath? Indeed, I tremble for my country when I reflect that God is just; that His justice cannot sleep forever..."

..Notes on the State of Virginia, Query XVIII, p. 237.

"I am a real Christian – that is to say, a disciple of the doctrines of Jesus Christ." ..The Writings of Thomas Jefferson

Patrick Henry Ratifier of the U.S. Constitution

"It cannot be emphasized too strongly or too often that this great nation was founded, not by religionists, but by Christians; not on religions, but on the gospel of Jesus Christ. For this very reason peoples of other faiths have been afforded asylum, prosperity, and freedom of worship here."

..The Trumpet Voice of Freedom: Patrick Henry of Virginia, p. iii.

Frederick Douglass Statesman, social reformer, abolitionist.

"I have one great political idea, the best expression I have found in the Bible. It is in substance, righteousness exalts a nation, sin is a reproach to any people. That's the whole of my politics, the positive and the negative of my politics."

Mark Twain Colliers magazine, September 2, 1904

"It will be conceded that a Christian's first duty is to God. It then follows, as a matter of course, that it is his duty to carry his Christian code of morals to the polls and vote them. Whenever he shall do that, he will not find himself voting for an unclean man, a dishonest man. If Christians would vote their duty to God at the polls, they would carry every election, and do it with ease. Their prodigious power would be quickly realized and recognized, and afterward there would be no unclean candidates upon any ticket, and graft would cease. If the Christians of America could be persuaded to vote God and a clean ticket, it would bring about a moral revolution that would be incalculably beneficent. It would save the country."

HOW THE LEFTISTS TOOK DOWN AMERICA

Political Warfare – Messaging and Dialectics – Otherisms

From unconstrainedanalytics.org

DEFINITION OF LEFTIST TERMS IN THEIR ACTION PLAN

Political Warfare is the deployment of all means possible, short of combat or full blown military war, to achieve its national objectives. It includes the use of overt actions such as: economic control and distribution, political alliances with forces with your same objective, etc; to covert actions and operations such as friendly foreign allies and pressures, psychological warfare to undermine a value or belief system, to the engagement and encouragement and support for an internal enemy of a country to cause proxy violence and internal divisions within a nation. They then use political correctness as an enforcement arm to control narrative that then drives public policy.

Messaging Dialectics is a theory by George Hegel. The long version could cause you a migraine headache. So here's the short version: it is arriving at the truth by stating a thesis, developing a contradictory antithesis and combining and resolving them into a coherent synthesis solution. In other words; you take our Constitution as the thesis, say it was written by racist white men as an antithesis, and say that good or not it must be void because of who wrote it and here is the new Constitution that excludes the founders input. Messaging of these dialectics is key to the left's success. Dialectics is always used to destroy something or someone; that's its only purpose. In other words, it weaponizes our language against us.

Otherisms are the targeted application of the dialectical principle of negation (cancellation) of people or groups to destroy their positions on everything. In other words, to make an ethnic group or class of people the enemy of the masses to cancel them out and blame them for all the wrongs the left are really doing. Such as the present attack on white males specifically and on manhood in general. All of this is fully integrated into larger political efforts.

Overview

There are two main issues we will not cover fully in this document but will address with our national action team because it must be done at that level.

They are the abortion movement and the global warming movement. Yes, the name has now been changed to "climate change" which has a more intense ring to it, but we won't let them name things to make them sound more critical than they are.

The abortion movement was born out of Eugenics, a theory by Sir Francis Galton, Darwin's cousin, in 1883. The basic premise is that evolution is not working fast enough to rid the world of undesirables so we had to stop undesirable children from being born. The USSR was the first to make abortion legal in 1920. In 1921 Margaret Sanger supported it along with birth control to stop certain ethnic groups and those born with health problems from having children. Adolf Hitler picked up Sanger's ideas and used them to kill Jews and Christians in the great Holocaust.

Global Warming was brought into the forefront by the 1979 World Climate Conference chaired by Robert M. White an American whose father was active in the Socialist movement. In 1988 they moved from global warming to Climate Change. In 1997 the Kyoto Protocol was put in place to hurt productive nations' economies and to divert money to third world nations who could pollute to their hearts' content.

These two movements above were and are being used to convert young minds in college without real education on the world, socialism, or America's fight for liberty; to cause them to feel they must rebel against America. The abortion movement was used to help destroy our culture and the Church's theology of Jesus Christ. The global warming lies are still being used to destroy the USA economy and capitalism. Both of these movements are used to create self-loathing in the young, create hatred for what their parents worked so hard to give them, to turn them against our society and to become part of the society of constant revolution against America. These two movements must be exposed for what they are; a socialist/communist attempt to destroy America. These young people became the tyrants they claimed to oppose. Without a strong America, there is no rival to China's rise to conquer the world.

China's Political Warfare strategy has successfully infiltrated every aspect of our culture and citadels of our society. By Citadels we mean the fortresses of our entire society and our founding principles: churches, education, business, government, media, healthcare, etc.

China formed an evil cabal that focused us on **chasing events**, while the evil cabal of Maoists, Globalists, and Islamists were undermining every aspect of the foundations of our nation and our lives. We were simply out maneuvered because we did not understand the new political warfare tactics or how to combat them. Our political

rhetoric, which is more focused on sustaining politicians need for power and re-election than effective actions, was incapable of confronting this new type of warfare.

Our response became hit it with a hammer; or just feed the Conservative movement with raw meat issues that have no bearing on solving the crisis at hand or supporting and fortifying our Citadels; but instead is meant to protect the politicians hopes for reelection and focus on events to get votes and raise money for their campaigns. The Conservative movement, led by faux conservatives, and false prophets who caved in to the left's terms and conditions and either, either without knowing or not caring, enabled the Maoist takeover of our society. They then provided the suicidal actions of compromise that enabled the surrender of America's republican form of government and society into a socialist nation.

All this did not happen by accident. The evil cabals of Globalism and Islamism joined with China for a very specific reason to do the following: 1) the destruction of Western Culture, 2) the targeted application of the dialectic negation of a people, and 3) the full integration of all this into a larger political warfare effort; (such as the 2020 uprisings in the streets,) by creating American-on-American violence etc. **This set up the movement to destroy America's history and remove the American identity from America.**

Finer Points

These finer points are important and some are repetitive of what you just read. They are important to understand so we know how to focus our efforts to take down the "takedown crowd," foreign and domestic, who are destroying America.

- 1) Otherism, as used by communists to try to isolate conservative thoughts, conservative movement, individuals, and groups so that they can then blame the groups they othered for all of society's ills. The leftists created hate, violence, and anti-American rhetoric, then blamed true non-violent patriots as violent instigators. Otherism is another way the left teaches youth that America is evil because being patriotic and supporting our Constitution is being racist. This is the way Maoists try to systematically destroy our nation and attempts to disenfranchise Americas from America and all it stands for. The more we retreat from these lies and refuse to speak the truth, the more the left can create a new vision of what they want America to be—defeated.
- 2) Political Correctness is the enforcement arm of the multicultural narrative to implement China's political warfare which then drives policy. When we use

the terms and descriptions of the left's narrative we place their narrative on equal footing with our real culture and principles. We become its agent.

- 3) The left's narratives that develop from item 2; that Conservatives don't control nor understand, are now driving national policy. When conservatives, and the supposed leaders in the Republican Party, shrink from constitutional principles for fear of being labeled (racist, homophobic, Islamophobic, or misogynistic) we are subordinating our constitutional principles to the Marxist narrative of what is true. Because we have done that, over time we adopt the Marxist narratives, become pliant, then become obedient to the leftist will. Republicans then try to weakly defend issues that got them elected, or talk a good game but wimp out on action. Thus demoralizing their base and causing the negation of our positions.

- 4) All this, plus leaving prior administration appointees and agents in our government, has led to our surrender to the Maoist Cabal. We seem more comfortable backing up than we do in confronting the enemy.

Understand what is Broken

First we must realize the designed actions of those who want to bring America down by infiltrating legitimate parts of our society and changing them from the inside out. That is why Maoists have infiltrated many good conservative groups, the Church and the government, and have someone actually working against the good of the group's effort from within. Knowing the strength of the American spirit showed Communism that we could not be taken down by a full frontal assault; we had to be destroyed from the inside. So they set about to undermine and destroy the trusted citadels in order to weaken our resolve. The Communist motto was, "If it ain't broke, break it." The following six issues are only the start of what is broken; these need to be fixed first. See Chapter 12, Action Plan 101 for the path forward to fix these broken parts.

The Church

The Church used to be a place where the Gospel was from the Bible, the music from religious roots, and the pastors were full of the Holy Spirit, and the good news. We can't tell exactly where and when it all started to change, but certainly a big reason for the change can be defined in two words "Bella Dodd." Bella Dodd was an Italian born immigrant who became an American citizen. She was also a communist organizer.

Two of her many areas of responsibility were getting Communists into the teacher's union leadership and also getting Communists into the Catholic seminaries to become priests. It is recorded that she got over 1,100 Communist and homosexual men into seminaries. A similar effort was made in the Protestant seminaries by others. These new Communist recruits brought with them false teachings and one goal: to take down the Church's teachings so that they could undermine people's confidence in the church of Jesus. They knew it would take years and they patiently waited until they got into positions of power where they could implement an agenda of pedophilia and false doctrine.

Through the efforts of these infiltrators the church became less and less about Jesus' teachings of forgiveness, mercy and love and more and more about social justice. This movement turned us away from the Divine Justice of God, and led us to a manmade political justice based on identity politics. The new church leaders began to drive out many faithful Christians and reinstruct the young to a new brand of Christianity that ignored the true teachings of Jesus Christ. It began to invite the worldly view into the Church. And today there are many churches broken by the Communist infiltration, homosexual and secularist ideas that have undermined the church and caused us to doubt or mistrust it. It is Jesus' church and He will protect it. His timing cannot be questioned; but He has commissioned us, in the meantime to save as many souls as we can by spreading the Gospel. We must fix this most important Citadel, the Church, if we are to return to a moral and ethical society. The government can now tell churches when they can open and how many people can be in the church, and soon will tell them what they can say.

Government

Abraham Lincoln, in honoring soldiers that gave their lives, said, "*that government of the people, by the people, for the people, shall not perish from the earth.*" It took about 150 years for that form of government to be overturned. Our government has become a government of special interests, so that the government can control the people. What was supposed to be a government where people served for a while then returned to their lives, has become a job for life to serve themselves. The FBI, CIA, DOJ and IRS have become instruments to protect those in office and not about serving and protecting the Constitution and the people. As fraud, lies, and self and special interests have dominated politics, the main focus of politicians has been about holding onto their political seats rather than serving our nation. The differences between political parties is shrinking at an ever increasing rate and becoming a distinction without a difference.

The people have lost faith in the government, elections and the courts because our republic has become more about the three initial departments - scaring, intimidating

and controlling the people, than about protecting them. The separation of powers has become a power struggle with the courts as supreme, the people losing rights and our society turning away from our founding and turning into a Maoist form of control. Government has become about protecting the government and not the governed. Where we once had the freedom to peacefully assemble, we are now forced to ask government for the permission to assemble; and when we petition the government the courts use precedence, not the Constitution, to overturn our petitions.

The new progressive government that is changing America uses lawsuits to get the courts to create laws, violate the intent of the Constitution, and enable government agencies to replace the rule of law with the policy of corruption. People who stand up against this are labeled by a variety of bad names and forced to stand down or resign, or have their lives torn apart and their families attacked by the progressive "Cancel Culture crowd."

Education

America has become one of the few countries in the world that teaches our children to hate their country. Communists knew that the United States of America, who saved the world at least twice in world wars, has been the main source of rescue for countries hit by natural disasters, and the last great hope for the world. So it had to be destroyed. The "isms" (communism, socialism, Maoism, progressivism) set about changing the truth about America into a lie its citizens could hate. They used the public school system to do that. Our history has been distorted by false teachings and our children indoctrinated to alternative life styles, anti-religious teachings, and Common Core and CRT designed to dumb down our society. Civics lessons have become political ramblings; science has become about political correctness not scientific fact. As the isms realized they could not take down America head on, they then set about using our children as a weapon against the truth by filling their minds with lies and half-truths. This was then reinforced in universities until we have a society where a great number now believe that communism is the correct form of government. Education facilities have become indoctrination camps and we have let that happen.

Culture

Slowly but surely over the last 200 years, our culture has been overwritten and changed. As the influence of the Church decreased, the government ignored the Constitution, and our education system re-educated our children to alternative life styles; our nation lost its belief in God and turned to a belief in self-interest. We were told by entertainment and political correctness, that God, Church, and moral values were old fashioned and out of touch. Have you noticed how almost every Hollywood movie takes the Lord's name in vain at least once? This is a violation of one of God's Ten Commandments. Have you noticed how they treat women as a conquest for the

hero, exposing their bodies, using them as a sexual interest rather than as the strength of our families?

Any society only lasts as long as the moral and ethical structure remains true to a higher authority. We have removed God and His moral teachings from the public square. In doing so they have been replaced with exploiting children, the sexual revolution, sex trafficking, greed, and the counter culture forcing people of faith to accept their alternative lifestyles or lose their jobs and freedom. To serve God and love country is the new counter-culture. That is why our nation is lost in a sea of corruption, lies, and now socialism/Communism.

Media

Donald Trump was blasted because he said the media was the enemy of the people. A more accurate description would be that lies are the enemy of truth, and bearing false witness is the enemy of the good, and the media is the propagandist machine for both. As the press continues to use lies and undermine the truth, not accurately portraying actions and events, they have become the enemy of the truth and that which is good. We no longer have freedom of the press, we have a press that suppresses speech and truth by intimidating those who speak it. We have a press with an agenda, social media controlled by a few anti-American elitists, and a society so afraid to be next on the Media's hit list that they are cowed into silence. If we are to respect all people like the left pretends to do, shouldn't all people have a voice?

When the media started using their opinion pieces as reporting rather than reporting true stories, freedom of the press was lost, and media became the enemy of the truth and the people.

Political Parities

Here are some thoughts from our founders and leaders on political parties:

George Washington's farewell address

*"[Political parties] serve to organize faction, to give it an artificial and extraordinary force; to put, in the place of the delegated will of the nation, the will of a party, often a small but artful and enterprising minority of the community; and, according to the alternate triumphs of different parties, to make the public administration the mirror of the ill-concerted and incongruous projects of faction, rather than the organ of consistent and wholesome plans digested by common counsels, and modified by mutual interests. . . . **Let me now . . . warn you in the most solemn manner against the baneful effects of the spirit of party .***

*. . . . It serves always to distract the public councils and enfeebles the public administration. It agitates the community with ill-founded jealousies and false alarms; foments occasionally riot and insurrection. **It opens the door to foreign influence and corruption . . .** A fire not to quenched, it demands a uniform vigilance to prevent its bursting into flame . . ."*

John Adams

*"**There is nothing which I dread so much as a division of the republic into two great parties,** each arranged under its leader, and concerting measures in opposition to each other. This, in my humble apprehension, is to be dreaded as the greatest political evil under our Constitution."*

Thomas Paine

*"Party knows no impulse but spirit, no prize but victory. It is blind to truth, and hardened against conviction. It seeks to justify error by perseverance, and denies to its own mind the operation of its own judgment. **A man under the tyranny of party spirit is the greatest slave upon the earth,** for none but himself can deprive him of the freedom of thought."*

Frederick Douglass

"I have one great political idea ... That idea is an old one. It is widely and generally assented to; nevertheless, it is very generally trampled upon and disregarded. The best expression of it, I have found in the Bible. It is in substance, "Righteousness exalteth a nation; sin is a reproach to any people" [Proverbs 14:34]. This constitutes my politics – the negative and positive of my politics, and the whole

of my politics ... I feel it my duty to do all in my power to infuse this idea into the public mind, that it may speedily be recognized and practiced upon by our people."

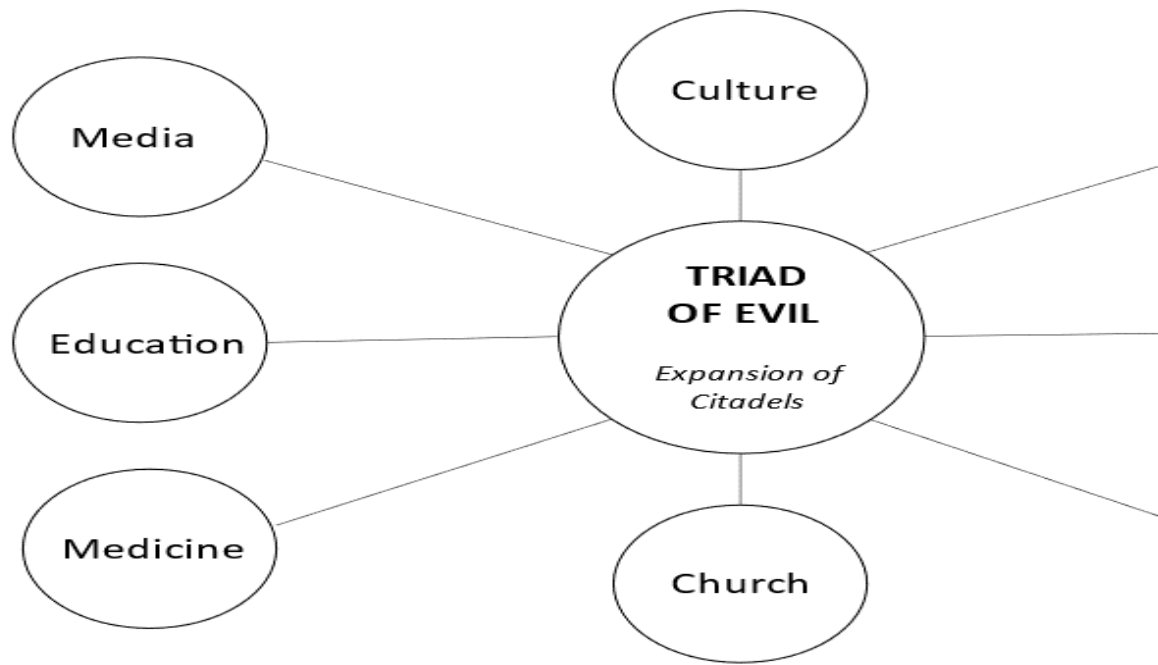

And their words have come true. Political parties have become and are only instruments for the good of the party. Establishment Republicans and Democrats, which are the majority of both political parties, wanted Donald Trump out of office, not because of his politics, not because of his mannerisms, his ego or his Tweets. They wanted him out of office because his main concern was the will of the people and that the good of the nation be placed before allegiance to the party. And he believed that the Constitution was rock solid law and the Bible our moral guide. Political parties are broken because they no longer serve the will of the people. They serve instead the election of those next in line who support the party policy promising everything, delivering little, and telling us it's the other party's fault. And when in doubt punt to the courts and let them create law. **These two parties are a difference without a distinction.** And our courts have become the ruling body without concern for the Constitution. As of this writing all three branches have excused away the corruption of our Constitution and laws. We are no longer the nation of our founders or of God. We are a nation divided by hatred caused by the political lies and actions, and a Godless society walking with vigor straight to hell. President Trump failed to understand how deep the deep state is and many of his appointees were indeed, deep state themselves.

If we cannot as a people of faith see the evil before us and not stand against it; if the Church and patriots fail to reclaim our culture, America will be a footnote in history of a great experiment gone wrong because of the indifference of its people.

The following four charts will walk us through these important steps.

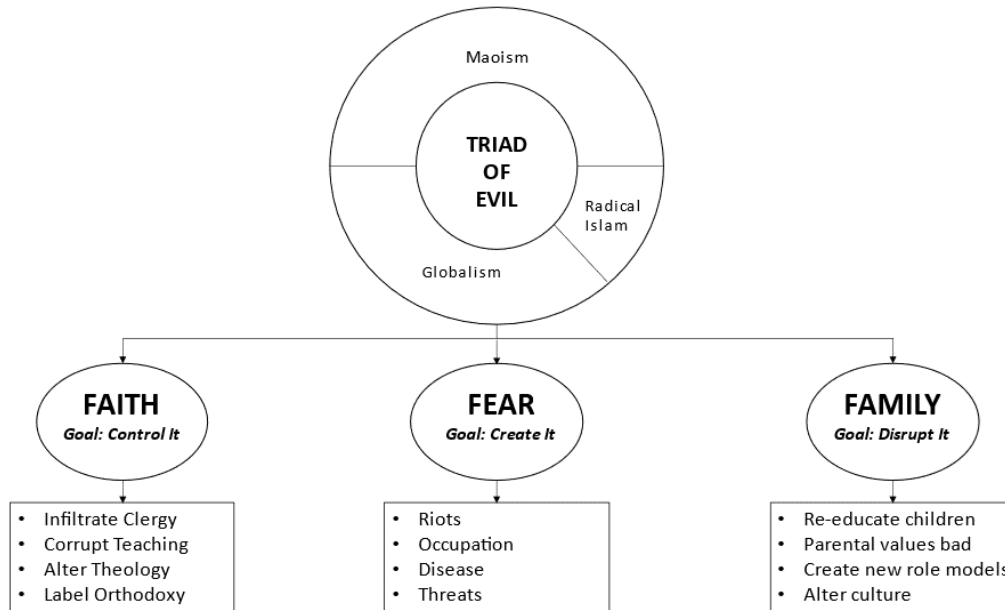

The first chart shows how the evil triad knew it had to spread its influence through every citadel of our society.

Chart One

The second chart reveals the three Fs of its policies. Learn to control faith, not destroy it. Where there is no fear, create it. And you must disrupt the family, dividing away the children from their parents beliefs, traditions, and culture.

Chart Two

The third chart gives us a clear path to combating this evil and the way back to a Republic with liberty.

- 1) Faith - Increase faith by bringing your Church out into the open in the public square. You must expose every lie and reveal every truth. Stay away from false prophets.
- 2) Fear – Can only be defeated with the Jesus in front of our army. And we must stand bravely in defense of our faith in every situation and in every opportunity. Stand up to all bullies and call them out for the cowards and haters they are. And for the love of God, stop funding our own demise by supporting corporations that push politically correct dogma that undermines our faith and country.
- 3) Family – We must bring our children back to home schooling for education. We can no longer trust the teachers union or the administrations of schools not to give in to dirty money to undermine our children. Return to no TV at dinner and talk with your children about what is happening, show them real role models, and pray with your kids and teach them the truths of the Gospel.

Chart Three

The Way Back

The fourth chart gives us great operational suggestions:

- 1) Each gift in its own field. Focus on your expertise. Stay in your fields of fire.
- 2) Realize this will be a protracted battle. Unless God decides to intervene, we are in for a long fight.
- 3) You must trust prayer and Jesus and return the Church to the public square
- 4) Work at the local level of your communities it's where evil started and it's where the undoing must happen.
- 5) National groups must assist local groups not try to control them or absorb them. We need thousands of small action groups all fighting in deferent communities on multiple fronts

- 6) Realize the Conservative movement is dead, a self-inflicted wound of compromise and false prophets; so we have moved to the Serve God – Defend Liberty Movement.`

- 7) Align only with groups ready to stand with God for Truth. And learn to shake the dust from your sandals of those who are not. God taught early Christians that even the dust that evil walked on became evil. So shake it from your sandals.

KNOW YOUR REAL ENEMIES

Knowing your real enemies can be difficult. Because like all great magicians they distract you from what they don't want you to see, to show you what they need you to accept. The modern American, that for years was so steeped in a great food supply, jobs, and entertainment, was so content they didn't want to rock the boat. Well now the boat is taking on water. We have enemies within the perimeter and we are decisively engaged (surrounded and fighting for our lives) against those enemies.

Real Enemies

The first real enemies are the false shepherds who lead some of our churches. They teach liberation theology, counter-culture adherence, politically correct lies, and identity politics form of social justice in order to make you feel guilty for not supporting abortion and same-sex marriage, and lead you to hell with a smile on their faces and 60 pieces of silver in their pockets.

The second great enemy is our own apathy and selfishness. We explain away the wrongs, let others do our fighting, and when we are threatened to stop or else, many turn on the fighters defending us and call them "far right" or some other condescending name to embarrass them into stopping their fighting. Mix those actions with our thoughts of "it's not affecting me" or "how can it benefit me;" that leave the Christian patriot warriors fighting alone for our liberties while those who turn on us are helping the enemies of freedom to take freedom down. We better remember that any sentence in a answer to God for why we sinned that starts with the word "but" will get our butts to hell faster than a politician to a donor.

The third enemy is all the "isms." Communism, Socialism, Maoism, and Progressivism. The Maoists are really leading the charge in the destruction of our culture, our society, our freedom, and our government. The weak politicians have taken China's money and think they can outsmart them for control of our nation. China has aligned itself with radical Islam, and radicalized American terrorist mobs who create destruction of communities, fear in the citizens and are well funded by elite rich American socialists.

The fourth enemy is the political parties, too busy keeping the establishment of both parties elected to office that they don't have time to serve God, or the people, or to save liberty.

The fifth enemy is the false prophets. Those who always want to keep you in a state of turmoil, confused, hoping for that which will not happen, keeping you distracted with false information in order to redirect your efforts away from rebuilding our infrastructure (church, education, government, etc.) and focused on events. They are trying to move us to supporting programs that are false and will fail. If these prophets are continually wrong, they are either false prophets or plants from our enemies to keep us on the wrong path or waiting for that which will not come. The test of a prophecy is whether it comes true. If the false trails lead to a dead end, you are following a false prophet. They are known in the intelligence community as fabricators.

Political parties are not our friends. They plot, compromise, and barter away our freedoms, rights, and country for one purpose only, for power by getting reelected. They keep talking a great game, take no real action, and destroy independent Constitutionalist who really want to change the stink in the swamp. Who really want to flush the swamp.

Government has become so overweight with bureaucrats who are working for their favorite program or political agenda, and agencies who have become politicized and have completely let us down. These old citadels of freedom have become the new citadels for corruption and the enemies of liberty. They are the DOD, DOE, FBI, CIA, NIH, CDC, and IRS to name a few. They are departments that operate under their own rules and disregard the Constitution and rule of law. They have abandoned their original missions and are now the heart of the government's attack on constitutional law and authority. This new form of government makes patriots and Christians the enemy and socialists, communists and globalists the heroes.

We can see that our enemies are now those we once trusted and respected. They have turned and now control the health system, the media, the economy, the military, the courts, the Church, and every aspect of our lives. If we don't stand against their power grab now, our Republic will be lost.

We must stop underestimating the enemies of America. They are smart, patient, persistent, well-funded, and have a real plan to destroy America. Their plan is working. We need a plan to counter this destruction.

5

YOU CAN'T ACHIEVE SUCCESS WITHOUT KNOWING YOUR MISSION

If the Church does not lead America will fall.

Our mission is simple. It is to “**Serve God and Defend Liberty**”. The mission is simple but the effort is complicated. We will focus on that which is broken (Chapter 3) as our first steps in this mission so we can start to reclaim our nation. If we want to see the reclamation of our nation we will need to bring God back into the public square, encourage the pulpit to speak the truth and to be active in the public discourse of ideas, focus on restoring the founding culture, return K-12 education back to education centers that are not indoctrination centers, establish the Serve God – Defend Liberty Movement and completely flush existing political parties or build a party that serves the people. We will use these five building blocks to present a results-driven action plan.

- 1) Foundational: The mobilization of individuals and organizations to form this new faith led mission called the **Serve God – Defend Liberty Movement** to begin the reclamation of America. It must be a holistic action plan to rebuild or redefine our citadels. This new movement must begin at the local level.
- 2) Alliances: Develop allies; how do we bring in new allies?
- 3) Violence of our enemies: Familiarize ourselves with the violent acts of our enemies and develop our response to them. Publish their violent actions to expose them for what they are really used for and to show what the enemy is really doing. Enact a plan to counter their actions and restore order.
- 4) A Non-violent Action Plan: We are talking about informational, economic, and educational warfare and looking at our enemies non-violent interdiction in

these areas to undermine and destroy our Republic and our faith and what we must do to restore both.

As we commit our organizations to this battle we must work on different parts but in one direction and with one mission: **Serve God – Defend Liberty - A Reclamation of America.**

Most importantly, **THE CHURCH MUST LEAD IN THIS MOVEMENT OR AMERICA WILL FALL.** It was faith that led our founders to a successful revolution against the tyranny of England, it was faith that helped them write our founding documents, and it was faith that led them in all aspects of their lives.

The pastors in Colonial times took the lead, reminded the leaders and politicians of their responsibilities and their duty to God and country. They did not hide or close their church doors. In fact, some led their congregations into battle against the tyrants.

Pastors, priests, and faith leaders! We need you now in this battle that if lost, could signal the very end of our Republic. Why do Christians hide from politics, saying the government is not in the purview of the church when all the earth and what is in it belongs to God? Everything is in the purview of God and therefore in the purview of the church. It's time for more Gideons, Joans of Arc, and Daniels to stand up and be counted in the numbers of God's army to protect the most vulnerable, to see justice returned, and to stand and not retreat from the evil that seeks to claim America as its prize.

6

BUILDING BLOCK ONE

REBUILD THE FUNDAMENTALS & SELECT YOUR FOXHOLE BUDDIES

The fundamentals of our nation's foundation are rooted in our faith and Founding Documents. They have been weakened and in some cases destroyed. Those six foundations are:

Christian Faith

Christian Culture

Founding Documents (Declaration and Constitution) Government

Education

The Bill of Rights.

To weaken and destroy these foundations, the Maoist/Marxist/Progressive Alliance (MMPA) had to undermine the citadels that our nation relied upon. Some of the most notable are:

The Church

Honest legislatures

Judiciary

DOJ

FBI

Fair elections

Medical doctors

Rule of Law

Education

And lastly they had to make the Bible irrelevant and proclaim the Declaration of Independence and the Constitution "out of touch" and "not modernized" to meet an ever changing societal evolution, and then condemning them as racist to divide us. In other words their goal is to move our country from a Godly path to secular false teachings.

The MMPA claims all those documents were written by flawed men and women. To believe this you would first have to believe that God and Jesus are flawed, that the Bible is just a suggestion on how to behave and that the Founding Documents are racist and divorced of morals or ethics. The problem in 1776, as it is today, is that too often we allow the politically correct issue of the day to rule our actions. The politically correct issue in 1776 was slavery. The secular anti-Christian revolution today (abortion, same-sex marriage), are against God and good vs. evil. Forcing society to accept the politically correct issues of the day is a Communist Political Warfare tactic to dismantle our society. Our Christian faith was started by one perfect God/man Jesus Christ, and was moved forward by flawed men called apostles who followed the perfect Savior. Our nation's founding was based on the teachings in the Bible. Our documents were written by flawed men who followed the Biblical Worldview *and listened to the words of Jesus Christ and formed a republic based on those teachings.* And yes, we too are flawed. To deny that is to deny there is sin.

First, let us look at how the MMPA has undermined or weakened the five foundations:

Christian Faith

Our government was founded as Patrick Henry states: ***"It cannot be emphasized too strongly or too often that this great nation was founded, not by religionists, but by Christians; not on religions, but on the gospel of Jesus Christ. For this very reason peoples of other faiths have been afforded asylum, prosperity, and freedom of worship here."*** These key words explain the meaning of the first part of the first amendment: ***Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof.*** This statement means that the government cannot create a single Christian church for all. The King of England did that; he took over the Catholic Church and created the Anglican religion and made it the Church of England. Our Founders never intended to separate Christian faith from States nor are those words anywhere in our Declaration or Constitution. The intent was neither to allow the government to dictate to the church what it could teach, nor to make everyone one denomination. The Founding Fathers were all Christians, but many denominations, and didn't want to be forced or to force anyone else into membership in a certain Christian denomination.

But the MMPA movement used the politically appointed courts to alter the meaning in the Constitution and the courts came up with separation of Church and state. Yes, Thomas Jefferson used the term "separation of Church and State," but he did so in writing to tell the Danbury Christians not to worry, that the government cannot come into your churches; we built a wall so they could not tell the church what to teach. From that point the courts wrongly interpreted the First Amendment and the effort began to diminish faith in our society. After 174 years of accepting prayer and God in the schools and discourse of ideas, they removed both. That caused a void that was filled by the sexual revolution and alternative lifestyles that included abortion, same-sex marriage and gender reassignment. It changed our culture from a God-led society to a faithless culture that now permits anything including euthanasia of seniors and the sick, killing babies in the womb, calling believers of Jesus Christ bigoted and out of touch, and making the Gospels into villains to destroy the will of the people to fight back. In reality it is the socialist hatred for all things good that has destroyed us and the fear of being cancelled by the cancel culture that has weakened us and turned us from the truth. Our own fear and cowardice in this fight is what brought us down. How did this happen? We allowed it to happen by complying with evils threats. As long as we as a society devalue life, and teach children that killing babies in the womb is okay; children will not be able to understand why killing the most vulnerable at any time is wrong. We are stealing our kids' innocence and wonder why they are mentally damaged. Hatred of others has been the left's method of discussion until it is now ingrained in our youth. The Church must return God to the public square; and pastors must lead from the pulpit in the discourse of ideas.

Christianity was the first building block of our nation and government. As President John Adams said: ***"We have no government armed with power capable of contending with human passions unbridled by morality and religion. Avarice, ambition, revenge, or gallantry, would break the strongest cords of our Constitution as a whale goes through a net our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other."***

The Founders knew that without the morals and principles of the Christian faith, there could not be enough laws or police to protect our society. They knew the most important part of a fair and just society was the Christian faith; the backbone of our founding documents. That is why the Maoist/Marxist/Progressive Alliance (MMPA) had to destroy the Church and convert the One True God of the Christian faith into a secular/multi-god multi-doctrine that favors Darwin's evolution theory over the true creation of the world by God. While our Christian founding principles open our country for all faiths to worship, the MMPA new age government had to denigrate all Christian beliefs. It called the Churches all kinds of names and called them out of touch. As faith faltered, our nation, corporations, media, and our education system collapsed into

chaos and towards the MMPA form of government. The new age Church under the watchful eye of the MMPA would worship man not God. The word of God would be replaced with the word of government. The new deity in this corrupted form of governance would be the government itself. To accomplish this, they had to lead the people to believe that Christianity was wrong; so they created descriptions for it like bigot, racist, and homophobe. They had the help of many false new shepherds in the Churches so evil could succeed. How did the Church help to destroy itself? It compromised with the devil allowing just enough evil in, step by step, to satisfy the MMPA's plans. The faithful know that there is no compromise with the devil; we know evil always wants to eat that which it conquers. Evil's plan is a church of the government with Sunday indoctrinations to turn socialism into the new Bible and the government into God.

The flaw of MMPA's theory is their failure to realize that the One True God is omnipotent, He created all, knows all, sees all, and is all powerful. He knows what He is doing. MMPA's evil could not destroy God so they had to try and reconstruct our image of Church and its role. For some it worked and they fell away from the true path of Jesus Christ. For those Christians who fell for the new age church, get right with God now and repent by working to undo the damage. Worshipping false gods is a soul killer.

Founding Documents – Declaration & Constitution

It may come as a surprise to you how large a role faith played in the development of our founding documents. They were written to protect the individual and the state from an overbearing government and judicial system. What our Founders underestimated was the lust for power, money, and selfishness the modern world would find in our elected officials. Then when God was removed from the public square, the experiment called American governance started to fall apart. Read the Constitution and Declaration through and you will see how faith led our founders to a moral path not to the political demi-god form of government we see today.

The federal government, under the leadership of the Socialist Democrat Party allowed this to happen. The lazy Republican Party has cancelled out both of our founding documents by not removing this evil when they came into power. The abuse of power in the 2020 Corona Virus outbreak had the effect of cancelling out individual liberty, suspending the First Amendment, and making it a precedent to be used for the suspension of any of the Articles in the Bill of Rights in the Constitution. Both those documents are not conditional, they are the rule of law. By the Supreme Court's action to not support those rights under Covid-19, the Supreme Court failed in their duties to protect and serve the Constitution. Governors must stand and protect their states rights under the Tenth Amendment and our individual rights under the First

Amendment. Also, if the schools will not teach the truth about the founding documents and Founding Fathers, the *Serve God-Defend Liberty Movement* will and to do that we have finished a Civics/Constitution/Citizenship video course called **"America's Founding Up Close and Personal"** to educate everyone on those liberties. It can be found free of charge on YouTube.

Cut and paste the following: [American History Up Close and Personal Course](#)

The course is called, "America's Founding Up Close and Personal."

Government

We need to start replacing the bureaucratic political animal with righteous moral statesmen. As the election of 2020 showed, it's not about who votes, but who counts the votes. It is also not only about who is elected, but those they put in place in the bureaucracy to run the government behind the scenes when they are gone. Government bureaucrats and lifelong politicians need to be replaced. Draining the swamp did not work. The swamp only back filled faster than it could drain. We wish Donald Trump had **flushed the swamp** and started from scratch. We lost an opportunity to make this a quick fix. Now we will have to do it by starting from the bottom up. That means each of us working at the local level then the state level and then the national level to develop and elect patriot citizen statesmen with term limits. This must be done as quickly as possible. The longer we allow corrupt globalists, socialists/Communists to rule our nation, the harder it will be to bring back a Constitutional Republic based on individual liberties and state's rights. If we don't realign the true power of our form of government, and stop allowing the courts to assume all powers and authority, we will never see a free society again. The courts were not seen as the supreme authority in the Constitution by our founders, they are the lowest branch of government behind the Congress and the President. The courts have anointed themselves as the only one who determines what the Constitution means. They are wrong. The people's voice is directly tied to Congress and the President by our votes for them. It's time to right the wrong. Jefferson knew what would happen with a National Supreme Court. Jefferson said, ***"To consider the judges as the ultimate arbiters of all Constitutional questions – a very dangerous doctrine indeed, and one which would place us under the despotism of an oligarchy. Our judges are as honest as other men, and not more so. They have, with others, the same passions for party, for power, and the privilege of their corps. Their maxim is, boni iudicis est ampliari jurisdictionem (it is the part of a good judge to enlarge his jurisdiction), and their power the more dangerous, as they are in office for life, and not responsible, as the other functionaries are, to the elective control. The Constitution has erected no such single tribunal, knowing that, to whatever hands confided, with the corruptions of time and party, its members would become despots."***

Education

Education was turned from fact based science, mathematics, history and English excellence in the education platform; to an indoctrination platform of new aged false science, Common Core math, Critical Race Theory, English and history programs that have altered the truth. This new socialist/Communist doctrine of hating America and dumbing down education has created two generations of ill informed, poorly prepared citizens who have been raised on the lies of Communism and not the truths of our founding republic form of government. The first thing we need to do is take our children out of public schools.

See Attachment A for how to educate your children yourself by using Enhanced Home Schooling, Empowerment Scholarship Accounts, and rebooting Christian schools by creating learning centers and enhanced home schools within your church.

New Political Party or a Flushing of the Old Ones

It's time we realize that the two party system in America is made up of the same kind of animal with a different name: "The Establishment." They are very adept at raising money based on fear of each other, lying to us about what is wrong, and pretending to be the only ones capable of fixing it. When we got a president (Donald Trump) that actually acted on those promises and started to change the status quo of politics back to a government of the people; the establishment in both parties united to take him down. You can't fix something that is so broken and based on power hungry and money loving professionals called politicians without serious allies and a rock solid plan.

Make no mistake, this will be a long term uphill battle. It will take a new brand of a statesman type leader who will come into office and flush everyone out of the system and replace them with faith led patriots who give all honor to God, and all political power to the people. We also must flush the judiciary from these lifelong socialist progressives who have used their positions on the bench to legislate a new world order. Do we honestly see an individual in government right now who has the courage and will to return us to the founding principles of our nation. We have a lot of good talkers, but are there any really good action heroes among them?

Perhaps we need a contract for candidates, wherein the candidates write down what they will do if elected. If they break the contract, they can be removed, which means we will have to have recall laws. We must also put in term limits. No longer than three terms in the house or two terms in the Senate. Some will say it's not enough time.

But if they are following the Constitution and doing their jobs, the next person in line will be able to pick up where the last legislator left off. The real power was meant to be with the people and the states, where government is closer to the people.

Patriot Republicans must create a party within the Republican Party much like the liberals and communists did to the Democrat Party. We are now witnessing the fruits of the left's efforts to transform the Democrat Party into the Socialist Democrat Party.

REBUILDING THE CITADELS

Parts of this Chapter also appear in the chapter called "Rebuilding the Fundamentals" that is in the "Political Building Block" chapter; however, we think it deserves its own chapter.

The old citadels we respected are broken. The government has collapsed into a political quagmire led by corruption and lies. So many denominations of churches have been infiltrated by socialist/communist members and have splintered into either new age anti-faith or orthodox factions. Our schools indoctrinate rather than educate. And the supposedly independent government agencies there to protect us, FBI, CIA, DOJ, etc., have gone political rather than maintaining their independent protection of the people.

We must decide which citadels we need to rebuild, and which we need to remove from our society. We believe rebuilding will take us many years of hard work and suffering. But it is necessary if we are to return to our founding principles and the greatness that was once our Republic. We believe the main citadels we must start with are: **The Church, schools and local and state government.** These are the closest to the people and the ones easiest to transform. They are the ones also that truly represent the will and power of the people and state's rights. These three citadels used to represent faith, hope, and liberty; and they need to again.

The Church Militant (We are the Church)

The Church Militant is the Christian Church on earth engaged in constant warfare against its enemies and the powers of evil: sin, the devil and spirits of wickedness in high places. True Christians are the Church Militant. It is the Church of Jesus Christ on earth. The Church is led by priests and pastors, but the flock is the army of the Church that fights against evil every day of our lives. Jesus Christ is the head of the Church, the priests and pastors and church hierarchy are the shepherds, and the laity is the body, the Body of Christ.

As the body of the Church we have a lot to say about how the Church moves forward. Our donations fund it, our actions support its mission, our work in the world defines it. So we do have a lot to say about its rebuilding. To do this from scratch would be

daunting, but we don't have to do that. We need to find the true shepherds in each of our denominations and work with the courageous few to return the Church to the most important Citadel of our nation, indeed, the Word of God is the moral keeper of our society on earth and the only hope for a moral and just government.

We must go to the true shepherds and tell them that we will stand with them. We must go only to the Churches where the word of God and teachings of Jesus Christ are the heart and soul of the Church. So we must support with action, deeds and funding those specific Churches that will be faithful to our Lord and Savior and all His teachings; a Church that gives all glory to God.

Then we must work with those faithful individual churches to bring our faith and services and the Gospel to our communities with love, mercy and forgiveness. To make the Church the true Citadel, it must be faithful to Jesus Christ, the Bible and in the actions of Christians in our society; showing by deed what being a Christian means. Hand in hand, Church by Church, diocese by diocese, congregation by congregation we will rebuild the Church as a Citadel to be respected, trusted and followed, a Church with moral authority.

The School System

A child starts developing a worldview at about 18 months and it is fully formed by age 13. They learn from those around them, their experiences and wanting to please the adults that impact them. However, the American school system has given way to political policies, alternative lifestyles, and indoctrinating children away from the core Biblical worldview that was the foundation of our country's development. We must make children our number one priority and right the wrongs in the school system that have taken the innocence of youth and replaced it with a hardened syncretism worldview (the amalgamation of different religions, cultures, and philosophies into an interfaith dialogue and teaching). The move to show all forms of sex and indecency only grooms our children to become victims of the sex trafficking industry and pedophilia market. The schools no longer are protecting and teaching our children about our founding principles, truth, God, real education, and the moral foundation of our nation which is needed for any society to prosper.

There is a need for a public school system, however, a failed atheist public school system does nothing but harm. That is one of the reasons for teacher shortage, few want to be part of this evil. To rebuild this citadel will mean we first have to leave it. Without the students and without the money that comes with each student, the public school system will collapse. It is the economic power of our children not attending that will force the schools to revert back to honest non-political, non-sexual centers of

learning. A quality non-politically correct curriculum is essential if we are to send our children back to the public school system. We will not destroy their future with the trash they call Common Core, CRT or 1619. To rebuild the citadel of education will require teachers who value each child and the truth, a curriculum that is fact based and not political dogma meant to cause fear and foster an alternative political worldview. The schools and governments must respect parental rights and never omit the parent from anything taught or to do with our children; certainly not a curriculum that inspires revolt against God and country much like those of today.

It will require parents who care enough about the quality of their children's education that they will be at the schools to see what is being taught and how it's being taught, that they will be willing to pull their children from schools that try to indoctrinate their children away from God and country. It will require parents to run for the school board and to vote for politicians who will support the rebuilding of the education citadel. We are not talking about new buildings and more equipment, we are talking about curriculum, and returning to sound and true education methods not New Aged failed teaching like Common Core and Critical Race Theory.

It will also take churches and pastors who are willing to spend the money needed to rebuild Christian Schools and make the teaching of a Biblical worldview a priority throughout the country and who will open their churches for classes taught by congregation members who know their topics and can teach. Most of all it must be a Christian school that is true to the Gospel of Jesus Christ. That means reading from the Bible, understanding traditions and their origins and showing how faith plays a role in each subject.

Government

The first two citadels, Church and schools, will be hard, but not impossible. Some believe the last of the three, government will be impossible. It has become corrupt at every level and in every way. We no longer trust the election process. Election corruption is the first sign of tyranny. We see how Congress, because they can't get laws passed in Congress and signed by the president, uses the courts to create law (un-Constitutionally). However, that changed in 2020 election. Now the new corrupt political way can get unconstitutional laws passed.

"I think myself that we have more machinery of government than is necessary, too many parasites living on the labor of the Industrious. Government big enough to supply everything you need is big enough to take everything you have...The course of

***history shows that as a government grows, liberty decreases.
The two enemies of the people are criminals and government,
so let us tie the second down with the chains of the
Constitution so the second will not become the legalized
Version of the first.” Thomas Jefferson***

We have witnessed abuse of power by Congress in countless investigations of ghosts that are not there and distract us from the wrong they commit. They spend our tax money for everything they can use to get votes, no matter how wasted the money is, no matter how wrong the legislation. They do this by hiding it in legislation we really need. We need a law that says any bill that requires the spending of money must be submitted on its own and not attached to or made part of any other bill and bills would be passed based on priority: Armed Forces, Treasury etc. Also preclude borrowing from trust funds, and all laws must apply to everyone including all levels of government. It would also be good to have a law that says for every percent over budget the Congress must borrow money, their salaries will also be reduced by that percent.

We see governors exceeding their powers, locking down their states, and destroying small businesses while letting big corporations stay open. We see how they say you can go to a bar or get an abortion, but can't go to church and worship God together. You can go to big box stores and riots, but you can't visit your family in nursing homes and hospitals. How many have died alone and afraid because of these tyrannies against the most vulnerable?

We have lifelong bureaucrats who use their positions and powers to undermine the government and to create their own rules and laws. They force people to comply or go to court and either way their businesses and lives are destroyed.

How can we possibly rebuild this citadel of government? It is not only broken it is corrupt. There is only one way. Flush the whole darn thing! How? Start by eliminating un-constitutional departments exercising authority not given to the executive or legislative branches. Replace staffing in whole departments and especially those who violate the laws and Constitution. Do this department by department until the whole system has been changed. Bring in people from outside of DC and business people; bring in entrepreneurs and front line doctors to staff these agencies. Bring in citizen patriots and start fresh. And then do the same thing with Congress. We need term limits, but until we get them, vote every single establishment House Member and Senator out and replace them with citizen representatives who will truly represent the people.

Start at the local level on school boards, and city and county councils and then repeat this on the state level. Require each candidate to say who they will have in their administrations. If they don't know who they want then how can they tell us they know what to do? Don't you need those who believe in your agenda to support your agenda?

And, as we said earlier, maybe it's time for a candidate contract. They sign and by electing them, we sign. If you violate the contract you return all funds collected and you must resign. Harsh, hard, yes. But we are on the edge of the cliff and the tyranny of government would like to push us off. The few can only control the many when the many are in fear to act. So act now. Find your own candidates, forget what political parties tell you, they've lied to us for so long that our country is on the verge of becoming a Communist nation.

If we don't stand now, our legs may be too weak to ever stand again. In God we trust. Be not afraid.

BUILDING BLOCK TWO - ALLIANCES FILLING OUT THE COALITION

The faith and liberty movement is diverse but disorganized. We need to organize not as one organization but one mission. Remember we are building a movement not another organization. To that end, we must be willing to accept groups where they are in defense of God and the fight for liberty, but to also shake the dust from our feet with groups who cannot focus on the mission first, **"Serve God – Defend Liberty,"** and put their organization second.

We will form this coalition based on some simple principles: God is Sovereign, the Bible is the word of God, The Declaration is the heart of our nation and the Constitution is the rock solid law that governs our nation and protects its heart. The President, Congress and Judiciary are not exempt from those laws. To that end we must build this movement forward with an army of Christian warriors who will stand with Jesus Christ and with patriots who will stand with our Founders view of liberty.

There is no guide for how to build your coalition at the local level. Each local leader and group knows their community and those who believe in God and liberty. **The one guidance point we offer is to find a priest or pastor in your area to be the lead in your effort. It must be faith led.** We all know individual pastors and priests in our own area who will stand in the breach.

As for groups, you will know the groups who want to work with you and stay on topic and focus on the movement's mission. If a group says they need your mailing list and/or try to use this coalition for fund raising, then shake the dust from your feet. It's not about them or their organization, this movement is about God and country and the power instilled in the people by God and our Founders to preserve the Republic.

BUILDING BLOCK THREE

VIOLENCE OF OUR ENEMIES

This topic requires a full and complete look at the violence of the leftist movement around the world and in the USA. To get that full understanding you must go to the Unconstrained Analytics website and read their full report called "The Left's Strategy and Tactics To Transform America." The direct link to the download for the article is <https://unconstrainedanalytics.org/wp-content/uploads/2020/12/Unconstrained-Analytics-Left-Strategy-Tactics-231120.pdf>

The home page is <https://unconstrainedanalytics.org/>. Stephen Coughlin is the heart and soul of this organization and their insights from years in the Intelligence Community are sharp, direct and truthful. We also honor Richard Higgins who helped found this site, a lifelong defender of God and country who passed away this year. This site is a must visit.

Here is a quote from their booklet The Left's Strategy and Tactics To Transform America:

The Violence LOE VIOLENCE [Line of Effort]: The new alternative society, existing as it does illegally and clandestinely, necessarily relies upon armed action to maintain its security within and without. The "liberation" struggle progresses through three strategic phases. Initially, the revolutionary movement will be on the defensive, then it will achieve stalemate, and finally go on the offensive. During each phase, a particular form of warfare will drive the dynamic. During the defensive stage, terror and guerrilla actions will lead. During the stalemate phase, mobile warfare (maneuver warfare) will be the dominant strategy. This will see insurgent "main force" units, equivalents of government formations, take the field but not seek to hold territory. The final phase, the offensive, will see such seizure of ground, the so-called "war of position."

Today, violence is an escalating component of political warfare efforts in the United States. In recent years, violent Leftist groups like Antifaschistische Aktion (Antifa) Occupy Wall Street (OWS), and Black Lives Matter (BLM) have (re) emerged.

In addition, violent attacks by groups un beholden to the Left have been used to support the Left's overall movement. For example, a jihadi attack in Orlando was used to call for rescinding the Second Amendment

while the storming of a U.S. Embassy abroad was deceitfully blamed on a YouTube video in order to seek limits on First Amendment free speech rights. There is an interactive interplay between the non-violent and violent lines of effort that must be recognized, understood, properly assessed, and addressed. The past three years have seen an escalating pattern of violence against American citizens, organized attacks on police, threats against government officials, shootings of Republican congressmen, and **an increased willingness to use coercive threats of violence in support of Leftist objectives.**

The use of violence in a political warfare regime serves three purposes:

1. As a **violent splinter in support of non-violent lines of effort.** The threat of violence by more extreme elements of a united front creates the **appearance of moderation** for the non-violent actor even though the stated objectives of the violent and non-violent actors are the **same.** (As noted in the textbox in the "Background and Political Climate" section, readers are invited to re-read the textbox.)

2. As **intimidation.** In tandem with supported narratives, the threat of violence is intended to frighten populations from forming an opposition. Internally, violence is used to tamp down dissent within the Left's united front.

3. As **threats of violence followed by the application of violence** are used to reinforce narratives structured to establish behavioral norms and associated speech codes. Violence used in such lines of operation is the punishment in a **punishment/reward strategy.** For example, attacking students for wearing clothing that violates "hate speech" codes like wearing the American flag.

Examples of **narratives that create a permissive use of violence** are the depiction of police as oppressive, immigration agents as Nazis, college students as "white privileged", and mainstream citizens as morally deformed deplorables. For a period of time leading up to the 2016 elections, whenever Black Lives Matter scheduled protests, a police officer somewhere was gunned down. There has yet to form a substantive recognition of the role these tactics play, not to mention any (real) response.

This is but a small sample of the violence and to obtain a full understanding of how this violence dominates the leftist movement go to UnconstrainedAnalytics.org and read the full report. We must understand these tactics of the leftist [leftist meaning socialist, communist, Maoist, and progressive] if we are to contend with and defeat their attempt to destroy America, our government and religious liberty.

We all witnessed the violence of these movements during 2020. Their strategy has always been to commit the acts until they are in power, stop them once they have power, and then blame the violence on the good people they remove from office. We call this "hate transference." They make it look like the freedoms they oppose are the

real perpetrators of the violence that the leftists themselves actually commit. The leftists create the violence and fear, and they use the atmosphere of fear they created to have you support them so the violence will stop. It won't. Instead it is replaced by a new kind of violence called "oppression of all rights and faith."

We call on all to go to the Unconstrained Analytics website, <https://unconstrainedanalytics.org/> and select The Left's Strategy and Tactics to Transform America. Read the full reports to gain a full understanding of the issues discussed in Chapters 9, 10, and 11 of this booklet.

This is how we all can become mission focused; by leading people to other resources that give a full understanding of the issues. You can also go to the Serve God Defended Liberty Movement's website www.servegoddefendliberty.com to learn more about this movement and the actions, plans and groups who support the effort to return our nation to a republic of the people as our Founders always envisioned it would be. We boldly defend a moral society led by faith, instilled with the importance of individual rights and an ethical and moral government.

BUILDING BLOCK FOUR – INTERNATIONAL SANCTUARIES

Using both international forums and the infiltration of every aspect of the American way of life and governance, the leftists have taken control of education, entertainment, finances, businesses, news, and religious doctrine in the world. And this is only the tip of the iceberg. In our efforts to be compassionate we have surrendered our faith, our rights and our society. Here, from Unconstrained Analytics, is how that looks.

The International and Sanctuary LOE

Although not as prominent an element during Mao's struggle as it became to his pupils, international pressure upon the state, or in favor of the insurgents, was recognized as an important element in the equation.

*The traditional definition of sanctuary in political warfare analysis focuses on territory and geography. This analysis, however, will also discuss the **Left's ideological sanctuaries across multiple domains including international political bodies, cyber domains, various organizations and institutions, and various strata of government.***

*The Left is able to find ideological and political sanctuary in most international forums. Governing and economic bodies like the United Nations, Shanghai Cooperative, Organization of Security Cooperation Europe (OSCE), the European Union (EU), and, owing to alliances, the Organization of Islamic Cooperation (OIC) all favor the Left insofar as they support the International order and "otherist" related identity movements. **The language of international forums is dominated by the otherism narratives of the Left.***

*The emergence of the **cyber domain has created a new form of sanctuary** that has fueled a tremendous rise in ideological recruitment and related activities. This new domain and its associated social media platforms, networking applications, and communications capabilities have demonstrated the ability **to unite various disparate actors from around the world** in a secure global communications network. It also **facilitates the formation of international networks of cadres** that support the resourcing, command, control and communications of operations on a global scale. This is a capability that 19th century anarchists like Bakunin and Nechayev could only dream of:*

“Imagine... a secret organization which has scattered its members in small groups over the whole territory of the Empire but is nevertheless firmly united: inspired by a common ideal. . . an organization which acts everywhere according to a common plan. These small groups, unknown by anybody as such, have no officially recognized power but they are strong in their ideal, which expresses the very essence of the people’s instincts, desires and demands . . .” The darkweb, Cyber encryption, and digital social networks allow previously disconnected and disparate groups to collaborate in the mobilization, resourcing, funding and execution of non-violent and violent lines of effort.

BUILDING BLOCK FIVE

NON-VIOLENT ATTACKS ON OUR COUNTRY

By now, if you are feeling somewhat down, take a break, find a quiet place and pray. God who knows all, sees all, and created all is watching. He knows the trouble we are in and we know that He will always provide to build something better. There is always hope in God. We realize that and embrace it. For lack of hope is a sin against God by believing nothing can ever change or make things right. God has done that throughout the earth's history. So find great joy in these times, for God has given you the opportunity to serve even if the world says you are wrong. These times will test our faith, but be faithful and trust in the Lord.

A look at how non-violent tactics can really undermine a country. Again, here is a quote from Unconstrained Analytics:

The Non-Violent LOE NON-VIOLENCE: The purpose of this line of effort is to grow the movement, increase allies through information operations and agitprop, etc., that synchronize with other direct and indirect action.

Through the political line of operation, the Left creates a counter-state or mass line that includes a parallel legal system that is international in nature, ideological in its application, and superior to the Constitution.

For example, the recent emergence of "hate speech" laws inhibit critical discussion of the Left (or Islam). Nevertheless, they remain silent on menacing rhetoric directed against anyone who would defend American principles, advocate Jewish or Christian beliefs, or vote for someone like President Trump. Furthermore, the threat of violence is in fact enforced by violence.

*Once the hate speech categories are fully developed and disseminated through the narratives that implement them, the next move will be to **criminalize** those engaged in it as is already occurring in the EU.*

*The non-violent line of effort is the most important supporting line of effort. **Non-violent tactics comprise the Left's main effort in America.** It also creates the conditions for escalating violence in the event that non-violent activities fail to achieve the objective on their own. As John Alexander observed:*

"If it is the politically acceptable outcome of conflict that determines whether or not victory is achieved, then the use of violence to accomplish that objective becomes optional. Further, modern technology has both increased the capacity for inflicting physical violence while diminishing the need to use it."

The point of Chapters 9, 10, and 11 is to show you the tactics our enemies are using to bring down our nation and the Church. We must recognize these tactics when we see them, explain them to as many people as we can reach, and then counter them with the truth. Catching them in a lie is not good enough, you must expose the lie, never back down from the truth and counter their actions with decisive efforts to stop them. This is where we use our Christian training, our economic clout and the power of our faith to overcome this evil. We have started a VLOG called "Decisively Engaged." This will be an information program to look at the truth on issues and actions so that you will know the problems, find real solutions, and work to return our nation to One Nation Under God. You can find out more information on www.servegoddefendliberty.com

ACTION PLAN 101

REBUILDING OUR FOUNDATIONS

There are three major areas of our society that are under attack and need three separate yet related solutions. Each area has its own elements, however each of the three areas and their elements are nested inside each other like Russian stacking dolls.

Those three areas are Cultural, Political and Structural. Here is what is nested in each of these areas:

Cultural: Is the most visible and impactful of the three. Included within this area are: church, morality, prayer, education, entertainment, food, parenting & family structure, architecture, etc. All have been under attack and culturally diluted. The goal is to make us materialist drones; perfect for tyranny to control. Included in the solution of the infiltration of our culture by globalist/communist agendas; is not only to remember what we are fighting against, but what we are fighting for.

Political: Selection and training of candidates (outside party influence), platforms, the marriage of Constitution and Declaration, power vs principle, statesman vs politician, and how politics are both downstream from culture and yet also culture is downstream from politics. It is this confusion driven paradigm where culture is often replaced with political driven worldly ideology. In the realm of politics we often work so hard fighting against corrupt policy that we can forget what policy we really support. We put medicine under political because the FDA, NIH, and CDC can bend medicine procedures at will.

Structural: is not only an issue on its own; it encompasses both Cultural and Political. Under today's set of circumstances, the reason structural looms largest is because finding a structural solution to the crisis of corruption and tyranny (created by the infiltration of all aspects of our society), is the prerequisite for solving both the cultural and political. Structural are those parts of American life that impact everything, and are slanted in favor of the left. To win the structural battle you need to control the rules of engagement. For instance: election integrity, investigating and prosecuting corruption, fraud, and treason. Removing protections from pharmaceutical companies

on vaccines, cancelling GPOs and BPMs, and removing Section 230 from the Communications Decency Act that permits social media to control issues without safeguards for free speech. We will also have to solve the structural problems in the judiciary, as well as finding a real solution to the supremacy of the courts over all other branches of government. What good are lawful laws made by the people's representatives if judges betray the Constitution by exceeding their authority to create laws?

The surveillance state is another example of a structural problem. Big Tech, the media, and the intelligence community have joined together to fundamentally transform America through site-ops and psyops, election meddling (Zuckerbucks), the "domestic terrorism" mass-shootings and the lies around why they happened, and the abuse of both the Patriot Act and the FISA court.

This matters a lot to the greater conflict against the left. If Conservatives are constantly being watched by their enemies, how can they make a strategic move at all? (Read what Sun Tzu had to say about deception and intel). This is a structural disadvantage. What was supposed to be neutral territory—law enforcement and the government's overall "situational awareness"—is now mostly controlled by the left. Indeed, if the Serve God Defend Liberty Movement is truly on track to make an impact, we should expect the surveillance state to infiltrate it somehow, and either make secret plans against us or leak our plans to their friends in the media. This is exactly what happened within the Trump White House, the NSC, etc. This is the reality in 2022—we can work around it, but we also need to understand it and push back.

Elections, courtrooms, surveillance—these are just three examples of places where the left has built a structural advantage. There are many more: the financial/banking system, the federal bureaucracy and Deep State, left-wing money laundering and pushing political correctness and CRT on our military and foreign policy establishment, the regulatory industrial complex, the energy industry, shut downs, taxes and spending, internet censorship, and the list goes on. We must take back every last inch of this ground to win.

If we don't counter on these structural fronts, all our cultural and political battles will be fought uphill. We can win elections (when they let us), but we would win many more if we could stop election fraud. We can make movies, but they would reach a larger audience if they aren't censored. We could be much more effective if we could act without being spied upon and persecuted by the federal security apparatus and their Big Tech cronies.

As we said in Chapters 6 & 7 Fundamentals: we must rebuild the foundations of our country. But some things are worth repeating. How do we rebuild? We start with the most important things first and build out from there. Before starting we must realize that the number one foundation of our nation, Christianity, has been relegated by the Socialist Democrats, Hollywood, even boardrooms and the media as a bigoted and old fashioned concept. The constant attacks by the anti-Christian movement has moved Christianity from the key building block of America to the new counter-culture.

Stop Letting Others dictate the terms and conditions of our Conversations

Many ask how did our nation get to this point? The answer is simple, we let it happen by complying to all the illegal dictates, abuses of our founding documents, the overreach of the government, and by succumbing to the threats of the politically correct bullies. As we move forward with all these action plans there are several things we must do:

Stop complying with illegal actions that try to force us to give up our rights under the Bill of Rights.

Stop using the definitions and descriptions of the leftist/socialist/communist/ politically correct groups. It is not "choice" its abortion, it's not "sex education" and "alternative choices in sex," it's grooming our children for the sex industry and pedophiles. Understand that once we use their terms and conditions we give their efforts legitimacy and diminish the truth. This is how they transformed our nation and our language and indoctrinated our children. We must take our language back and always use our terms and descriptions not theirs.

CULTURAL (Returning to our Founding)

Under the Cultural portion of our actions; the very first step is for the Church to reclaim its primary place as the cornerstone of our nation's founding documents and as a key player in the public discourse of ideas. The Church must become again the moral center of our nation's structure.

The second order of business is to realize that the education system, K-20, has become a socialist propaganda arm of the anti-American movement. They have

undermined our Republic, helped to create the mob rule mentality, and have replaced the truth of our nation's history with Marxist/Maoist rhetoric; which helped to form the violent, cowardly mobs that rule the streets on command. The education system has endangered our children and has stripped away many even most possibilities for their future with low quality education.

Action Item One – The Church in the Public Square

- 1. Returning God to the Public Square** – The Church must reclaim its rightful place as the voice of our national culture and morals. We Christians are the Church. Before we start, we must understand that our churches have been infiltrated by the leftist movement. The progressive Marxist/Maoists successfully placed communist and LGBTQ activists into the church's seminaries starting in the 1940s. Many of them are now in the church's hierarchy and have caused the schisms within Christianity's mainstream denominations. (look up the Bella Dodd story) They are seeking to control the church's actions and to present the church as a new age modern church steeped in new (false) doctrine. Their goal is to use the churches as modern indoctrination centers turning away from the Gospel of Jesus Christ and moving to the false gods of the world. If we are to counter this, we the Church militant, must rise to the role God has for us, stay faithful to His teachings, and stop donating to churches that go against God's will. Cutting off the money is not enough. We must stand up in the public discourse of ideas and point out those heretics in our church who are false prophets and shepherds. And let Christians know the real Church is still active, supports Jesus Christ, and is standing with them in truth, faith, and patriotism.

The congregation must go to our Church leaders (pastors, priests, bishops etc.) and tell them we want the Church to again be that body which Jesus requested of us; ***Luke 10:1 And after these things the Lord appointed also another seventy-two: and He sent them two and two before His face into every city and place whither He himself was to come.*** Right now many pastors are all too worried about the numbers in the pews and the amount in the collection box; instead of the teachings of Jesus Christ and the Gospels, and the Commandments of His Father. Show pastors and priests that the minority of the congregation may be against them, but that you and the majority will stand with them to the end.

Step Two

We are **not** trying to build a national theocracy, but to rebuild a moral and ethical nation founded on the Word of Jesus Christ. You must go to the faithful Church leaders and show them we will stand with them no matter the cost. This is important because many new age pastors and priests have walked away from the words of our Savior and have become worldly. If 5% of the politically correct people in the Church pews can complain and divert the Church away from its mission; certainly the 95% can turn it back to its purpose to serve God. You must convince your pastors you will stand with them to that end and then do it. Create a Serve God – Defend Liberty Movement in your Church to work shoulder to shoulder with these pastors and priests. Start with the ones who are faithful to the Gospel of Jesus Christ

Step Three

The church must show itself in the public square. The people must know the true church of Jesus Christ is still here and with them. They must see us to know that. Each month we are asking all Churches to join together and hold a Pilgrimage walk around their neighborhoods. Not just around the church building, but around the entire community they serve. They must see that the true church is still here, standing to Serve God and Defend Liberty. If the Protestants and Catholics walk together around their communities, then the community will know the church is there to stand with them. This is a Jesus Christ movement. And the followers of Jesus Christ must walk in a harmony of trust in His leadership, the Gospel, and mercy letting the community know they will stand with them, that the true Church is still here.

Step Four – Don't Let Government Dictate to the Church

True Christians must return to the Church on Sundays to pray and sing and tell the government, you do not control the Church, you are not God, and we have a Constitutional right to practice our religious liberty and rights as we choose! This is not civil disobedience, because the edicts presented by government to close the churches are un-Constitutional. They can only control us if we surrender our rights and betray our God. This effort at the church is a non-violent demonstration of our faith and trust in God, our acceptance of Jesus Christ, and our willingness to live and spread the Gospel.

Step Five – Recapture Education, Family, Business, Government, Entertainment, Media and Religion

This is sometimes spoken of as the “seven mountains” in our community. We need to identify all the leaders of these communities, know who are faithful Christians and who are not, get our intercessors, bishops, and churches to pray for those who are doing what is right, for those who have abandoned what is right for ungodly actions, and then connect with these leaders to turn them away from political correctness and social justice and lead them in the truth and divine justice. It is time to take the lead in speaking the truth, fighting against false narratives, and canceling out all fear with the perfect love of God.

Step Six Prepare for Home Churches

Be prepared for the worst case scenario and establish homes where home churches can be put in place. This is the extreme case of the government shutting down churches, but already the government and media are calling the Catholic Rosary a weapon as deadly as AR-15s and those who pray the Rosary “terrorists.” They are setting the stage to destroy religious freedom in our nation.

Action Item Two – Reclaim our Children’s Education

Step One

The first order of business in education is to make a commitment to take your children out of the public education system. The public schools have completely politicized and secularized education. They are now indoctrinating our children away from God, our country’s founding principles, and pitting our children against God and their parents.

Step Two

We must set up alternative education sources for our children until such time as the public education system is fixed. Those sources include: Enhanced Home Schooling, Education Empowerment Accounts, and solid, true Christian schools not infected with materials such as Common Core, LGBTQ doctrine, government funding, and anti-American teachings. See **Attachment A** for details. Those who control the content of education, control our children. We parents need to sacrifice as required to

make sure our children grow up with a Godly direction, a solid and true education, and a well-grounded understanding of our nation's founding principles and documents.

Step Three

Start developing and running our own candidates for local school boards. Get them educated on the issues and truths about what is happening in education and teach them how to defend those truths with facts. Start flooding every school board meetings with parents and children to demand a return to classical education and the removal of alternative, sexual, and indoctrination studies and courses.

Take back school boards even if your kids are no longer in school. It is the feeding ground for candidates to higher office. And if you can get whole neighborhoods to vote for school board elections you can win. It will also show how much courage (or lack of it) that these candidates have to do what is right. Remember who you are talking to when you speak at a school board meetings; you are talking to those attending the meeting or who are watching it on Zoom. Be civil, direct your comments at the issues, and never make it a personal attack.

POLITICAL (Undoing Corruption)

Action Item One – Unity of Mission

To accomplish any progress in the political arena, we must first stop using the left's terms and conditions. It's not "choice" it's abortion. It's not "sex education" it's grooming our kids for the sex trade industry. The Constitution is not a "living document," it's the rock solid law of the land. We must realize the left uses Hegelian Dialectics to destroy our culture. So, when they say "choice" we say abortion. A list of the terms must be developed.

We also have to stop all this fighting between organizations. Catholics and Protestants are not the enemies of each other, black and white are not the enemies of each other. We have to stop being a one amendment voice and start being, collectively, the Bill of Rights voice. The more we let the agents of evil divide us, the weaker we become. We don't call our churches a black church or a white church, we call it God's church.

In the military, when we jumped into a fox hole, we never once heard another soldier say, "excuse me are you a Catholic?" I never saw a sign in a fox hole saying for white

or black soldiers only. In war we fought together, we ate together, we lived or died together. So we better all stand together now or certainly we will hang separately. We are at war with a leftist movement to absolutely cancel liberty and form a Maoist society right here in River City.

Action Item Two – We Define the Platform

We must not ask the candidates what their platform is. We must tell them what platform we will support. We must come together to design that platform and unite our support for it without changes.

Action Item Three – Vote Only for Those who Support the Platform

If politicians use the argument, “Where will you go, you have to vote for me” line, just tell them, “We’ve lost before and can lose again to preserve the Republic our founders gave us.” We must be in this for the long haul.

Action Item Four – Select, Educate, and Develop Our Own Candidates

Our positions in the community give us access to all the best the Serve God – Defend Liberty movement has to offer. We work among them and see who has the fire, skills, and personality to win in the debate of ideas. It is up to us to pick who we want to run, to challenge every establishment candidate and to have the person we want on the ticket. We must develop the tools needed for conservatives to win. Build a team in your community.

Action Item Five -Realize Our Economic Clout

We are talking about the 100 million Serve God – Defend Liberty army that can control which companies survive, what politicians get support, and which can put a major crimp in the left’s money supply on the road to their destruction of our Republic. If you don’t believe in doctor-assisted euthanasia, then you certainly don’t believe in funding the companies that mean to destroy us. That would be self-assisted suicide. So let’s stop funding them by **not** buying their products or services. See **Attachment B**.

The boycott is an economic weapon used by the cancel culture (media, entertainment, social media to remove faith, patriotism, and honest discourse of

ideas from the public and private arenas. Boycotting someone because of their political views is wrong. However, continuing to fund those companies and organizations that are undermining our core moral values and are trying to destroy our system of government, our churches, attack our children and the moral center of our culture is committing suicide. We cannot let evil stand without taking action to undo that which is wrong. To counter the efforts of these evil plans we must stop using the services, products or viewing entertainment that poisons the minds of our children, attempts to destroy the Christian faith, and to ruin the livelihood of Christians and patriots who stand in loyal support of Jesus Christ and our Constitution. Those who use the cancel culture to silence free speech and Constitutional and individual liberties; do so with malice towards religion and hatred of liberty. The strongest boycotts can be when individuals act on their own accord to stop using the services or products of companies, organizations, and individuals that work against the values we hold dear, especially our faith. The Cancel Culture twists our system of government and purposely uses counter-culture concepts to indoctrinate our children and use them as weapons against their parents and country. Christians and patriots must willingly sacrifice comfort and convenience if we are to serve God, restore our culture, and return to a nation that is free and just. We must at all times stay true to our faith and our founding principles. All our actions must be based on the moral principles that guide our beliefs. The Maoist/Marxist movement has taken down our way of life through violence, hateful personal attacks, and falsely labeling our actions and intent. We must defend our way of life by principled Christian actions. Allowing sin to flourish and hate to rule us by donating to groups and companies that willingly destroy lives is neither Christian or patriotic. As Jesus said, "Be not afraid, for I am always with you." But each of us must ask ourselves what is it worth to save our churches and our nation? What will we sacrifice to serve God and country?

Some will say that boycotts don't work. And that will be true if we don't stay true to them. The leftists don't even need to boycott, they just threaten and cowardly corporations and politicians cave in and do what they want. Just think of what will happen if 100 Million Christian Patriots actually boycott those who condemn people of faith and the patriots of our nation. They will stop the cancel culture in a heartbeat. The best action against bullies is a direct "you don't scare me" approach. This will neuter the politically correct cancel culture.

Action Item Six – Return Medicine back to a Patient/Doctor Relationship

The Government and corporate medicine has replaced the doctor/patient relationship of healing and wellness, with a control and profit first dynamic. The Covid –19 debacle was their test run to see how far they could push the people. We the people totally

caved in to their fear tactics, lies, population control, and money first tests on how far they could force us to do what they wanted, close what they wanted, and withhold treatment protocols that worked.

Structural (Rebuilding the Foundations)

If we're to defeat the leftist/Communist/Globalist/Islamic takeover of our society, we must take back the structural elements that hold it together.

Here are some action steps:

Elections:

Action Item One: Know who Controls the Election Process

Article 1 Section 4 of the Constitution gives the States the right to set the times, places, and methods of the elections to each State Legislature. Not the Governors, poll watchers, or ward leaders; the State Legislature alone. The first action item is to learn your state voting laws and the roles played by everyone working the polling places.

Action Item Two: Find out How you can get a polling place position

Elections can only be stolen if we are not present for both the voting process and the counting of the votes. We need to work the polls and have in hand a copy of all the rules and laws. Secondly, we must have police there to witness what is happening. Thirdly, we must never surrender our poll position as a witness to what is happening, questioning corrupt behavior, and how to report and stop it. Lastly we must not be bullied into leaving; stand your ground.

Work with the legislature to have stiff voting laws for voter fraud and election fraud. Also strong laws stating there cannot be any voting machines connected to internet, no modems in voting machines, and no stopping of the count, nor of removing poll watchers until the vote is completed and counted. Also, never allow drop boxes where the chain of custody is broken.

Protection of our families and Communities

Unconstrainedanalytics.org has published a guide called "Insurrection & Violence a Citizen's guide." This free booklet is well worth reading to understand how to protect your family and community against domestic and foreign terrorists. The Unconstrained Analytics web site provides a wealth of truthful information about what is happening in our nation today. Reading this booklet and following it's suggestions can help you to protect that which you love. There is also the Battle Ready program available www.battlereadystrong.com that shows you how to prepare in the event of riots or other disasters. The security of our families is a critical part of moving forward.

Learning the True Faith of our Founding Leaders

www.ffchristiancitizenship.com will publish a **Prayers for America** booklet that can be downloaded free of charge. This shows the faith of our founders and their belief in our Christian society that formed this nation. Start educating your children on the truths of our founding in your own home.

www.servegoddefendliberty.com will keep you updated on what is happening and new ideas to counter the leftist "cancel" and "political correctness" culture.

You will also find a video series on, "America's Founding Up Close and Personal." This series is free and can be found at

ACTION PLAN 201

Action Plan 201 describes the advanced actions needed to move forward after Action Plan 101 has been implemented and is fully operational. While Action Plan 101 starts to get three key components right with God and the Constitution, Action Plan 201 starts the process of rebuilding the structures of our society and government so that the foundations of both are what our founders envisioned for a God-fearing society. Here we start increasing pressure on the evil allies.

Step one: Remember from Chapter 12 that politicians are not our voice, they are the voice of the political parties. We must stop letting them tell us what the platform for action will be and start telling them what platform we will support. A model of a good platform is attached in Exhibit C. Stop funding parties and start funding individual candidates who you know will do what they promised. Nothing gets a political party's attention like not responding to donation requests. We want loyalty for the protection of our liberties and rights. Design it for them. It's time they start realizing they are the employee, and the voter is the boss.

Step Two Let your faith show in everything: greet people with a friendly "hello" and leave them with "God bless you." Bless those who curse you; this particularly throws confusion into the response of evil and hate. It can tend to make the person attacking you madder, but it will also make those around you see who you are (Christian) and they will more willingly listen to your ideas and plans than the haters' remarks.

Step Three God will spit lukewarm Christians out of His mouth.

So, because you are lukewarm—neither hot nor cold—I am about to spit you out of my mouth. Revelation 3:16

Enter this fight against evil with confidence that God will be at your side, because He will. Should you enter either lukewarm or in fear, evil will see your weakness of faith and overpower you. Jesus I trust in You.

Step Four When confronting evil and its agents, do so with strength and conviction and also with love. This does not mean that you surrender to their ideas or attacks, it means you do not act with hate or anger. You do not step away from what you believe

and you don't let their name calling stand. If they verbally attack or try to cancel you and your remarks or call you names; respond in confidence. I once had a newspaper reporter who said I was a bigot because I was against same-sex marriage. My response was, "I know you think Jesus Christ is a bigot, but He is not, He is the son of God." The reporter spent the next 10 minutes trying to explain he was not anti-Christian. The reporter then said, "I didn't say Jesus was a bigot, I said you were." My response was, "Jesus Christ is my mentor, my Savior, and my teacher. What I believe is what He taught. So if I'm a bigot in your eyes, so must my teacher be." Learn to turn the tables.

Step Five Learn to shake the dust from your sandals. Try as you can, there are those who have sold their soul to the devil (even some on our side). Learn when to walk away from those who don't want Christian answers, solutions or action. Also there are groups and people who just want the limelight or to raise funds and do not put the mission first. Shake the dust from your sandals. You need groups and people who are there for the mission and nothing else.

Step Six You know what your gifts from God are. When you use them, and we need to strive to use them consistently, honestly and creatively; start by offering them to God and end by thanking Him for the gift.

Step Seven Start letting your elected officials know that we know what they did or didn't do. Let them know we will primary them.

Step Eight Realize the enemy is smart, patient, daring, and ruthless. Never underestimate them. They thrive on defeat as lessons of what not to do the next time. Remember when you dance with the devil it's not the devil that changes.

Step Nine We have one mission: **Serve God – Defend Liberty**. Learn when to lead and when to follow. This is a spiritual war. It's not about building up our organization's membership, financial reserves, database, or getting credit for our actions; it's about the mission.

Step Ten We need to change being reactive into being strategic. Know what you want to accomplish and stay focused on that. Stay in your fields of fire and don't be distracted. The opposition has us focused on events while they are focused on destroying our citadels and our infrastructure.

Step Eleven Realize we are under a chastisement caused by not staying true to God's commandments and His instructions. Speak out against abortion, sex trafficking,

assisted suicide, same sex marriage, etc. It is critical to pray for wisdom and then educate yourselves and to find answers to your own questions. Don't be satisfied with a slogan or a sound bite. Learn the facts and reasons for your rationale to the second and third degree (meaning to the second or third level of questions that will be posed by others) and your confidence in explaining your convictions will encourage others to do the same. By doing this you will begin to return our nation to the founders' vision of a nation led by God.

Step Twelve Facing the Government

Part One: Know the Truth

Our government is made up of three categories of workers: elected officials, appointed bureaucrats, and worker bees. Our government is controlled by two political parties Republicans and Democrats. The truth is that there is almost no difference between them. The "establishment" or leadership of these two parties are creatures of power and money and they don't want to lose either. The two political parties have long since stopped being about the people they are supposed to represent, and have become about the global secular vision of power for a few, real liberty for none, and total control of the population and their movements. Step one in facing the government is to realize that government is totally broken. We can't waste time draining the swamp; we must flush it - one great expulsion of all things corrupt, inept, anti-Christian and anti-liberty. How? By picking our own candidates to go against party choices.

Part Two: Mobilize individuals and organizations

We have in our spheres of influence many who would join **the Serve God – Defend Liberty Movement** if they knew they were not alone. You know your area and community. Adapt the mission to Serve God and Defend Liberty to the needs and structure of your local problems. **It must be a holistic movement characterized by comprehension of the parts of something as intimately interconnected and explicable only by reference to the whole.** It means we are not one organization, we are one movement moving in the same direction for the same mission. We work together to Serve God and Defend Liberty. It cannot be a selfish movement for any organization or individual' but rather for God and country. You must be able to bring in those who want what is right for our nation, and those who understand and accept our Christian origins and commitment to be faithful to God. We must be ready and willing, as it describes in Luke 10, to shake the dust from your feet for those who don't understand it's not about them or their organization; it's about giving all glory to God, and preserving our national culture as viewed by our founders. While we want to invite

people where they are in their spiritual and patriotic walk; we don't want those who want to undermine our Constitution by taking unconstitutional actions or who want to compromise our Christian values away. Start at the community level and build outward. That's how leftists took over our nation and made us a secular, immoral and socialist society. Our strategy should be to fight this battle on our terms using their own tactics against them and by exposing them for what they are.

Step Thirteen: Flush Existing Political Parties or Create New Ones

If we can't flush the present political party system, we need a political party that values the Constitution and the Bible as the guiding documents of our nation, one that can be the alternative voice to the establishment politics of the Democrat and Republican Parties. We can do this as a party within a party - one based on the "Serve God—Defend Liberty" principles and retooled to keep all the existing good parts of that document and to include new parts that strengthen our nation and rebuild and support our citadels. Yes, we may lose elections for a while, but after witnessing the corruption of the last election do you think we will win with the new election system in place? Already establishment Republicans are planning a third party to stop the patriot movement and form a "centrist" party, which means a compromising movement to keep the status quo. Remember we did not lose our freedoms overnight, our enemies worked for years to compromise liberty away. Get used to and ready for a long battle for freedom. We must be in this for the long haul. That is how we will return our nation back to God and our founding principles.

The Democrat Party has abandoned their platform of being for the working class and for liberty. They are no longer the party of labor and patriotism; they are the Socialist Democratic Party which stands for corruption, hatred, destroying education, our culture and our liberty. The Republican Party talks but rarely acts. They can be called "the party of promises not kept." The RNC's blind support of any Republican, even those who betray the rank and file to gain favor with those who will never favor them. They have failed to remove the damaging laws created by liberalism. They are afraid of their own shadow and have not yet learned how to defend the culture, liberty or education. These are but a few of their failures.

So we can see that the Democratic Party and the Republican Party are both parties of the establishment. They work for and support the government perspective. They defend corruption within the DOJ, FBI, and CIA (to name a few) and they allow the courts to violate the Constitution and the rule of law without taking action. So the question remains: can we flush these parties and start them anew or do we need a new party that understands that we were founded on Christian principles and morals, so that our government, companies, and people can live in peace, security and the pursuit of happiness.

Step Fourteen: Build A University on Line

The higher education system in America has become the new playground for Socialist, Marxist, Maoist and other anti-American groups. It is where the mob rule was born. Young minds are forced into accepting alternative life styles and failed political policies that have enslaved people for years. We must develop a university on-line which will develop a curriculum and policy that is true to quality education and helps to build sound individuals who can build a free, Constitution-driven society that treats all Americans equally under our Constitution. We must remove political correctness from all courses, teach civics and history based on fact not counter-culture or Communist doctrine. Education is the second most important key to the reclamation of America, after the return of the Church to the public square.

Step Fifteen: Build a rumor and fact control center

This is to be added to our website: www.servegoddefendliberty.com

Step Sixteen: Build a Serve God – Defend Liberty help center

This is to be added to our website: www.servegoddefendliberty.com

Step Seventeen: Watch over our leaders

Hold leaders accountable for promises made.

Step Eighteen: Learn who owns America and broadcast it.

By learning which countries own American companies, we will better understand the agenda.

Step Nineteen: Stop defining the absurd.

Don't give their lies any credibility by responding to false stories. Move on the topic you want to discuss.

RECLAMATION REQUIRES WARRIORS OF THE CHRISTIAN FAITH

There is no doubt that our nation was founded and built on Christian principles and ethics. The solid belief in those principles is what made our country safe, prosperous and the leader of the world. People came to America because it was different in how it treated its people, its workers, and provided opportunities. The Communists spent years trying to get the American youth to abandon that and make them soldiers for a change to the evils of Communism. They managed to remove God and liberty and replace it with corruption, tyranny and loss of liberty.

In their efforts to be the agents of change, universities produced the anti-American anti-Christian mobs that run unchecked through our streets. It was the removing of Christian beliefs and our founding and way of life that allowed this to happen. It was the destruction of those beliefs that opened the door to corporate, political, and social corruption of our culture. Morality, ethics and loyalty were replaced with a default to violence, hatred, greed, and lust for power that led to the destruction of our way of life.

America needs its Christian warriors for Jesus Christ to again take the forefront in the Reclamation of America. It will take courage for them to face the mobs (the cancel culture) and the increasingly socialist government that has taken control of our political process. This is the time that churches must take the lead role in developing young Christian Warriors for what is right and just. If our churches' shepherds won't take the lead, then we must take on that responsibility ourselves.

We must form Christian Warrior training with Bible studies, lessons from America's greatest citizens, and a full civics/Constitution/Citizenship course that the **Serve God – Defend Liberty** movement has created. This is our test of faith. We must embrace this challenge, stand against the evil that will come against it, and live our lives with courage to defend it. It's your time and turn to develop the next Christian Warriors for God and country. You must be the next mentor to make this happen.

STAYING CONNECTED

Staying connected is a lot harder than it used to be because the search engines are blocking us. One of the best ways to stay connected through our Sunday gatherings in church. We have to form **Serve God – Defend Liberty** movements in as many churches as we can. Then after the church service or Mass, meet to discuss what is happening in our nation. If possible, have a handout of weekly updates. We have also created a VLOG that will be on Vimeo and Rumble and YouTube called “Decisively Engaged.” This will provide information on issues, action plans, and “how to” programs for the Reclamation of America. We also have several internet news shows developing (will keep you advised) and there is also Brighteon TV.

Remember in times of occupation, especially during WW II, allies found ways to communicate and keep in touch. Remember that rumor and false witness cannot enter into or guide that communication. That will be the death of any movement. We are developing a Decisively Engaged VLOG program to bring you information.

Stop worrying about if we are being listened to. We are. The internet, our calls, our electronic communications can all be hacked and listened to. No matter how much good you do, the left will paint it as racist, homophobic, treason, Nazism, etc. We can't let their lies stop us; keep speaking the truth, don't back down from it and find sources of information that are correct and honest. Again we will attempt to distribute those sources to you so you can have a wide range of communications to stay as connected as possible.

Prayer, repentance, faithfulness to God, forgiveness, loyalty to our Constitution and Declaration of Independence, will help us find our way back. Be a **SOW** – **Servant of God, Obedient to His Word, and Warriors for Jesus Christ.** In this will we find the strength and path to become a true moral Republic again.

EXHIBIT A

ENHANCED HOME SCHOOLING

Enhanced Home Schooling is a system established in which the church supplements the home school process. A church or group of churches join together to select the same home school program. Then on select days and times, members of the church with expertise in certain subjects, hold an on-line VLOG to teach the subject. This system does several things: 1) Teaches the children the truth, 2) Provides active support for parents who feel they are not able to teach the subject, 3) provides a resource to answer questions through the church, 4) builds a network of parents linked by the same program for teaching, home school field trips, sports and socializing.

There are several really good Christian based home school programs as well as churches that have implemented Enhanced Home Schooling. We will update our website www.servegoddefendliberty.com with these programs and contacts.

Another part of this program is to legislate the Empowerment Scholarship Accounts so that the parents can either fund their homeschooling for their children or send their children to a school of their choice. This program is outlined next.

EMPOWERMENT SCHOLARSHIP ACCOUNTS

Empowerment Scholarship Accounts are designed to provide parents opportunities to place children in programs or schools that meet the child's needs rather than to cram children into programs that fit the government's political agenda.

EXHIBIT B

BOYCOTTING ANTI-RELIGIOUS AND ANTI-LIBERTY COMPANIES AND ORGANIZATIONS

There are several things we need to remember before starting this action to stop funding those who want to undermine Christianity, destroy our Republic and its liberty, and try to force us to fund our own demise. 1) God has called us to defend our faith and knock over the moneychangers tables. 2) To not stop using the products and services of those who would destroy us is committing suicide for liberty. And 3) Sacrifice for what is right and just is a beautiful sacrifice worth making so that our children and grandchildren will again some day be able to breathe the air of freedom and justice.

The best method of boycotting is by individual decision. This means every person selects those companies and products that support issues that wants to take away the rights of others under the Constitution. Right now our nation is under attack by both domestic and foreign companies that want to destroy the foundations of our societies. They do this by virtue signaling and by virtue shaming; by destroying our history and faith, and by trying to force us to accept conditions that undermine our society. The individual boycott is best; as we who love God and Country often join together for the cause of preserving liberty.

At times where we find such an egregious act against God and country we will place that on our website: www.ServeGodDefendLiberty.com and ask you all to join us in that boycott. God bless you all.

Exhibit C

Serve God Defend Liberty Platform

Serve God Defend Liberty Platform

The Serve God – Defend Liberty Platform does not create a theocracy form of governance. Rather it embraces the core moral principles of our Founding Fathers reliance on a Biblical Worldview of moral and ethical government. To that end, we will support no laws that remove the power of or violate our Declaration of Independence and it's calls for liberty and a fair and just government of the people. We call on political party platforms to insure the rights in the Bill of Rights are secure; and remember that governments are instituted among Men, deriving their just powers from the consent of the governed, that whenever any Form of Government becomes destructive to these ends, it is the Right of the People to alter or to abolish it, and to institute new Government. Thank God our Founders gave us a peaceful solution to this change. We at Serve God – Defend Liberty will only vote for and support those candidates who also are will to follow a path for the Reclamation of America.

Election Security Act: The first order of liberty in this platform then must be to secure and guarantee fair and just elections. To that end we support the Election Security Act.
