Table of Contents

Section One - Terms & Descriptions

- a. Overview
- b. Finer Points
- c. Political Correctness the Leftist Weapon of Compliance

Section Two - Establishing a Serve God Defend Liberty Movement

- a. Reclamation of America
- b. Understand the Levels of Policy and Influence
- c. Understand Why we are Replacing the Conservative Movement
- d. prayer

Section Three – The Maoist Communist Model Destroying America

- a. Overview
- b. Mao's/Globalist Attack Groups to Betray and Destroy America
- c. Republican's Assistance to the Left's takeover

Section Four - Start Reclamation of America at Local Level

- a. The Church Must Lead
- b. Election Integrity is a Must
- c. Solve the Political Party Problem from inside the Party.
- d. Establish Local Leadership
- e. Never Underestimate the Enemies of Freedom.
- f. Strategy to win School Boards, County Councils, etc.
- g. Rebuilding Education
- h. Develop our Own Candidates
- i. Messaging, it's always Messaging

Section Five - Building the Teams

- a. Selecting the Team
- b. Survey the Community
- c. Issues not on the Communities Survey

Section Six - Removing other Obstacles

- a. Replacing Politicians with Statesmen
- b. Remove Ego, Organization, and Who gets Credit

Section Seven – Messaging to undo the Woke's Narratives

- a. Overview

Section Eight - Countering the Left's Battle Plans

- a. What Contributed to the Left's transformation of America
- b. Our Counter Plan for Reclamation of America

Section One

Terms & Descriptions

Political Warfare – Messaging, Dialectics, and Otherism

Political Warfare is the deployment of all means possible, short of combat or full blown military war to achieve its national objectives. It includes the use of overt actions such as: economic control and distribution, political alliances with forces with your same objective, etc; to covert actions and operations such as anti-American foreign allies and pressures, psychological warfare to undermine a value or belief system, to the engagement and encouragement and support for an internal enemy of a country to cause proxy violence and internal divisions within a nation. They then use political correctness as an enforcement arm to control narrative that is then used to drive leftist policy.

Dialectics is a theory by George Hegel that the long version could cause you a migraine headache. So here's the short version: it is arriving at the truth by stating a thesis, developing a contradictory antithesis and combining them both and resolving them into a coherent synthesis. In other words; you take our Constitution as the thesis, say it was written by racist white men as an antithesis, and say that good or not the Constitution must be void because of who wrote it and here is the new Constitution that excludes the founders input and injects socialism.

All this is certainly more complicated than this but it certainly is enough of an explanation to generate how we can respond on the tactical levels in our communities and states. www.UnconstrainedAnalytics.org has the full migraine version.

Otherism is nothing more than the targeted application of the dialectical principle of negation of specific people. In other words, to make an ethnic group or class of people the enemy of the masses to cancel them out or make them the enemy. Such as the present attack to marginalize then destroy the role of men in our society and manhood in general. All of this is fully integrated into larger political efforts

Mass Line is organizing and alternative society through the construction of clandestine infrastructure, that is, counter state. The component parts are United Front, Violence, Political Warfare described next. (see www.UnconstrainedAnalytics.org for even more).

- **United Front** (in this case) Globalist, Islamist and Maoist in common cause to take down America. Join together to find lost souls to give them a home. Sort of like a gang does in the inner cities.
- **Violence** this violence was used to disrupt, confuse, and to strike fear into the hearts of the existing society. First as a defensive move to protect itself, then hoping for a stalemate when they are on same level as the government, then on the offensive to become the new government. In short: 1) cause fear and terror 2) Take to the field to disrupt and 3) Take to the field for seizure of government.
- **Political Warfare** nonviolent methods to undermine morality and our culture and to separate Americans from the American dream and their identity as the beacon of light for what is right and just.

Overview

China's Political Warfare strategy has successfully infiltrated every aspect of our culture, society, and citadels of our nation. By Citadels we mean the fortresses of our entire society and founding principles: Churches, education, business, government, media, healthcare, etc.

China formed an evil cabal that was used to misdirect our efforts to chasing events, while the evil cabal of Maoist, Globalist, and Islamist were busy undermining every aspect of our lives and societal infrastructures. We were simply out maneuvered because we did not understand the new political warfare tactics or how to combat them. Our political rhetoric, more focused on sustaining politicians need for power than effective actions, is incapable of confronting this new type of warfare.

Our response became "hit it with a hammer"; or just feed the Conservative movement with "raw meat" issues that have no bearing on solving the crisis at hand or supporting and fortifying our Citadels.

Instead Republican dialog was meant to protect the politicians hopes of reelection and focus on events to get votes. The Conservative movement, led by faux conservatives caved in to the lefts terms and conditions and either without knowing, or not understanding what was happening, enabled the Maoist takeover of our society. The lack of a true meaningful programs to stop and correct the overturning of our society's principles and morals only proved to be the suicidal action of compromises with Marxist/Maoist that lead to the take down of our government and society; which then transitioned America to the Maoist/Globalist counter culture. The leftist

movement has transformed our culture; the result being that the Christian rooted foundation of our foundation has now become the counter culture and our Constitution is routinely ignored by government and the courts.

All this did not happen by accident. The evil cabal of Globalism and Islamism joined with China for a very specific reason to do the following:

- 1) The destruction of Western Culture
- 2) Targeted application of the dialectic negation of a people, and
- 3) To fully integrate all this into a larger political warfare efforts. (such as 2020 uprisings in the streets, American on American violence, riots, looting, defund the police.

Finer Points

These finer points are important and some repetitive of what you just read. They are important so we retain what happened; and we know how to focus our efforts to take down the take down crowd foreign and domestic who are destroying America.

- 1) The Otherism strategy by Marxist is to destroy America and is focused on the systematic destruction of identity leading to the systematic disenfranchisement of Americans from America (principles, Constitution, culture).**
- 2) Political Correctness is the enforcement of the multicultural narrative to implement neo-Marxist objectives which then drives policy.** When we use the terms and descriptions of the left's narrative we place that narrative on equal footing with our real culture and principles, and by agreeing to use their terms we become agents for the Maoist changes.
- 3) The Leftist Narratives** were then based on our inaction in item 2 above (Dialectics); Conservatives don't control nor understand how the left is driving national policy. **When conservatives, and the supposed leaders in the Republican Party, shrink from constitutional principles for fear of being labeled (racist, homophobic, Islamophobic, or misogynistic) we are subordinating the constitutional principles to the Marxist fake narrative of what is true.** Because we have done that, over time we adopt the Marxist narratives and became pliant then obedient to the leftist will. Republicans so weakly defended issues that got them elected that their efforts became a side show with no teeth. This is frustrating the conservative base and giving power and energy to those who are taking down America.

- 4) The left defines everything that "is" (the history of what happened and how to control the dialog of what the history should be) as fuel for the process that targets what to negate. Change becomes perpetual revolution. **So we are always fighting events and losing ground in the infrastructure wars, while our citadels are transformed and used against us.**
- 5) The Marxist/Maoist plan adopted a long march through our institutions strategy based on Mao's long march political warfare strategy. **The leftist knows the role narratives play in overwhelming rule of law societies.** "Conservatives in Congress" and "Conservatives" building organizations; (both of which lost focus on the mission) turned their focus internally to build and protect their groups, raise money, and being the one who should lead. When we needed foot soldiers in the battle for our culture, all we got were generals who met, ate great meals, and scheduled when to meet again and what to eat when they meet. Meanwhile, Conservatives screamed about liberals in the neighborhoods taking over our citadels and destroying our culture, and winning over the youth to their cause. In short you can tell liberal foot soldiers by their flat feet from walking the neighborhoods winning hearts, and you can tell Conservatives by our flat butts sitting in meetings complaining about it.
- 6) The left met their targets (people to convert to their plans) where they were, and gently nudged them over time from passive to active in the fight to transform America. This Mass Line strategy line of effort (LOE) builds the counter-state within a state complete with its own bundle of **replacement legal, cultural, and social norms that operate parallel with that of the host culture.**
- 7) Our responses fail because we accept China's mass line concepts of America as the terms of engagement. The left uses emotional narratives making their Communist manifesto sound normal replacing our mainstream Christian culture and making our responses sound shrill, rigid, and ideologically wrong, sound as uncaring rhetoric . **Because we are not defending the Constitution or our faith, we are playing the game on the leftist home field.**
- 8) The leftist focus on cultural and institutional power by presenting their ideological actions in terms of "values," no matter how corrupt those new values really are, then placing their forces throughout each organization so they can promote and effectively implement

those values by making them first equal to ours, then becoming the norms, then the policy, and finally law. **They have changed our Constitution values to new anti-America norms.**

9) Fake news and deep state are the wrong terms for these actions, they are **both propaganda and counter state** insurgents fighting a guerilla/clandestine style political warfare. Using fake news and deep state only keeps us **focused on events** and not on the absolute strategic political warfare used for the destruction of culture, values, principles and liberties.

10) We keep calling the leftist stupid and that they don't understand. While it is our side that is falling for the don't throw me in the "briar patch" lines. **It is our side that doesn't get it.** We are in a Mass Line, political warfare strategy that has captured generations who now hate what America really is.

11) The left's narrative, best described as stories and fictions, became the new realities and replace the real with the fake. In short, fiction becomes fact and lies become truth.

To not understand how leftist use history to actually move us backward in culture, history, etc; (so they know how to move forward with their agenda) has led us to constant error in our response on all levels.

It's time for a new strategy, **to fight the enemy where they are, and to take back our nation in the long march in reverse.** If our old ideas, concepts of warfare, and failure to recognize where the enemy are, how they operate, and how we need to unite continue; **if the Church does not lead, if we do not honorably and courageously defend our Constitution and learn how to communicate the good of our founding; we lose this fight.**

Time to dismount our failed strategy and mount a horse that will ride. We must return to the culture of our founding, the Constitution, and values that got us here. Fighting this new war will take time but there are some immediate results we can get at the local levels. Remember Jesus we trust in you. Faith in God is our strongest defense against all evil and transformation of our society.

Political Correctness is the Leftist Weapon of Compliance Their Isolating discussion to conform to their Narrative is their Control

The left continues to fabricate a false reality (lies), uses political correctness to control our actions and response to that false reality, and through threats, cancellation, and reeducating our children keeps the rest of us in a box when attempting to respond to the lies. So we never see the world from any other viewpoint than the left's false narrative.

That means unless you are willing to take on the cancel crowd and suffer their slings and arrows, you can't find the truth or a way to escape their false reality to even find the truth. Isn't that the case now, where instead of us looking at what is wrong and why the wrong was implemented, we keep chasing the false flags and lies put in place by leftist, their allied politicians, communist, and globalist to fundamentally change America.

A good case in point, elections have turned into a system that says they can't count the votes for days, suddenly find more votes, then count ballots that have lost their chain of custody, not verified as to where they came from, and not sure why dead people are voting.

The leftists say but let's count them anyway because if not we are suppressing the vote. The courts keep throwing their hands up in the air, the people committing the fraud are the ones assigned to find out if there is fraud, and the press keeps saying it's not fraud its election deniers. There is no way out of the cycle because, the ones committing the fraud control the way the process is reviewed and sets the rules so that all comments and ideas have to be within the circle of the rules set by those breaking them. And nonprofit leftist groups like ERIC are the ones who determine if the voter rolls are correct. To understand this more comprehensively go to www.unconstainedanalytics.org

With this understanding the first step in changing the dynamics that have corrupted everything is to realize that both party's establishment organization are meant to control the political process and party workers while attempting to control voters. Establishment politicians believe they are the ones who are served by the parties; and the voters and party workers are there to serve the candidates. In this inescapable bad dream, where no one serves the voters and the voters can't change the system; our elections and government have been corrupted.

That is why the Conservative Movement is dead. We didn't say conservative ideas are dead, just the movement. Over the last 30 years it has been the establishment politicians who called themselves the face of

Conservatism that has killed the Conservative movement. They have destroyed the real virtues of Conservatism on the table of compromise.

That is why we have created the Serve God – Defend Liberty Movement. This movement is about the reclamation of America and the restoring of the moral and cultural founding that led our nation to be an apple of God's eyes. That apple under the faux conservative leaders has turned into a stone.

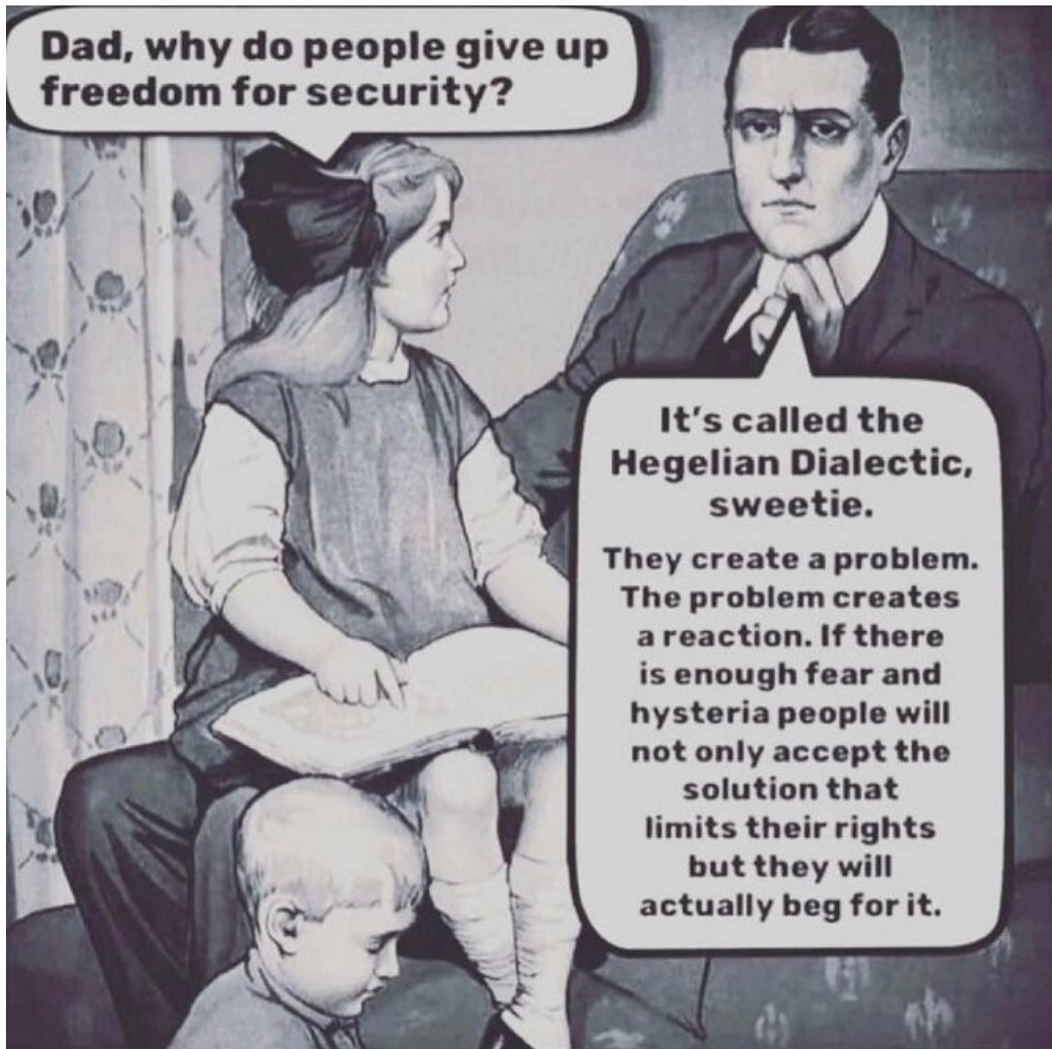

The lefts Hegelian (Georg Wilhelm Hegel) addiction to German idealism is the launching platform for all things left. This was later used by Marx as a means to sell and inflict Communism upon the world. Hegel's concepts are best shown in this cartoon on the next page, that states it well when it says;

"They create a problem. The problem creates a reaction. If there is enough fear and hysteria people will not only accept the solution that limits their rights but they will actually beg for it."

Simplistic we know. But the truth none the less. We would add, that Hegel's ideas make things so confusing that not only can't you find a way back, you can't ever find the question to ask.

So we become stuck in a box. As they have us isolated in on their terms and descriptions, with the political correct weapon to cancel or disgrace anyone who does not agree; we become isolated in the lefts control box unable to escape, we become covered in fear, and lost in all this is the truth. The only way out is for the Church to lead us in punching a hole in the box (or walls that block you) and run for the Bible and the Constitution.

I'll just add that along the way it will cause more division between freedom loving people and pro slave sheep, which in turn makes it easier to CONTROL people. (Edited)

Section Two

Mission - Establishing a Serve God Defend Liberty Movement

First: Read Reclamation Of America

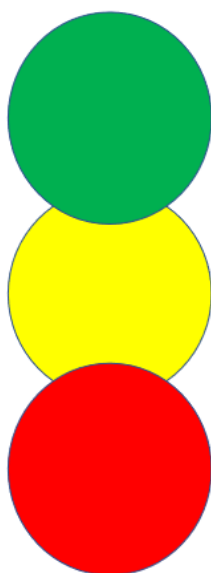

You will find this document on the this website <https://www.servegoddefendliberty.com/> Chapters 12 and 13 will outline a plan of action for different missions. Apply them to local community needs.

Second: Understand the Levels of Policy and Influence

All too often we, at the local level, keep chasing things we can't influence or have the ability to change. That is why we use the three levels of action as to how to approach the reclamation of America. Because we are in spiritual warfare which has transformed our society and is attempting to destroy our liberty; we must understand that this is a battle against principalities, against powers and the rulers of darkness. But we must also understand that these rulers of darkness use flesh and blood agents to sway us away from the Christian founding of our nation to lead us to surrender to socialist/communist doctrine. The chart below shows the levels of action against such evil tyranny:

Here are the Three Levels of Action/Operations

Levels of Operations

Strategic Plan – A strategic plan is the national high level overview of the entire strategy for the Reclamation of America. It presents the vision, objectives, and values. This plan is the foundational basis of the organization and will supply the long term operational (Statewide) and tactical (local) operation concepts. Crucial components include the vision, mission, and values. This is the long term objectives.

Operational Plan – The operational plan describes the day to day running of the of Statewide operations and coordinates with all tactical groups. The operational plan charts out a roadmap to achieve the tactical goals within a realistic timeframe. This plan is highly specific with an emphasis on short term objectives. These can include providing for support of the tactical groups.

Tactical Plan – The tactical plan describes the tactics for local groups to use to achieve the Reclamation of America by winning positions on local school boards, city and county councils, election polling positions to include: counting votes, holding polling positions of responsibility and reporting any corruption or fraud. The tactical is the foundation of the Reclamation of America

Why are the levels of operations important? (and again this battle we are in is spiritual warfare), because that is exactly how the enemy transformed America. We must start at the **Tactical (local) Level** and build up from there. This does not mean we don't get involved in the Operational Level (State) or the Strategic level (national); it means we focus on where we can make the most impact and foundational changes at the tactical level of operations. We assist with the other levels but by joining in a Line of Effort (LOE) that requires coordination with State and National groups.

Third: Understand why we are replacing the Conservative Movement with the Serve God -Defend Liberty Movement

The Conservative Movement is dead. It died on the table of compromise. Each time establishment politicians who claimed they are conservatives, surrendered any ground to leftist policy they diminished what conservatism really is. When those same establishment politicians also accepted the terms and conditions of the left, that means the next talking point always starts at the compromise point which is always further left. This not only diminishes conservatism but also the Constitution. In order to rebuild and institute real conservatism back into our government, we need a non-compromising movement. So we stated the Serve God-Defend Liberty Movement. In this movement we do not compromise our principles, founding documents, or our moral core.

Why is compromise such an evil? Here is the definition of compromise: "an agreement or a settlement of a dispute that is reached by each side making concessions". But in truth, the right is the only ones who make concession that hold, while the left completely reneges on the deal once they take power. The left always, when regaining power, reinstates the concessions they made, then starts a new series of compromises, base on the compromises the right makes, that moves the solutions even further left.

Congress and the president have only three responsibilities: to serve the people (not the other way around), to protect and defend our rights as free men and women of the USA, (meaning defend the Constitution), and to protect and defend our borders, our liberties, and nation against enemy attacks.

Serve God – Defend Liberty Movement wants to turn those in our Congress and the Presidency from politicians to statesman. What is a statesman? Someone who represents the people and their issues and the principles of government. What is a politician? Someone who represents their political party and keeping their party in office at any cost. That is why politicians serve special interest, and statesman protect the Republic and serve the people.

Fourth: Pray

We need to be constantly relying on God. The scriptures tell us that “the battle belongs to the Lord” and that the “weapons of our warfare are spiritual” and that we are “to put on the full armor of God”.

Jesus Christ gave His followers a framework for praying in the Lord’s Prayer. The focus of the prayer was “Your Kingdom Come, Your Will Be Done.” And then a four-fold request, 1) Give us Bread (the provision we need) 2) Forgive Us as we Forgive (the holiness/humbleness we need), 3) Lead Us (the direction we need), 4) Deliver Us (the protection we need).

The Lord’s Prayer is also a together prayer. “Our Father” We are indeed in this together under the Sovereign God, the High King of Heaven, the Ruler of Heaven and Earth.

As we take action in this realm, our recurring prayer should be these elements of the Lord’s Prayer along with a prayer for “God to expose evil and its lies, and reveal the truth.”

As we pray in this way, humbly before God, and take the steps we are recommending in this manual, God will do for us what we cannot possibly do for ourselves.

A final thought on prayer as we proceed. Evil is real. Wickedness is real. It is the heart of God to save as many as possible, even those now practicing wickedness; to find them where they are with the hopes of bringing them to salvation. A prodigal son/daughter is as strong as a reformed smoker. But while attempting to win hearts, we must remember, when evil hearts are exposed to sunlight, some hearts are changed and some hearts harden. We must stand strong against the hardened hearts.

Let us pray, “God to bring the adversaries of Yours to Yourself we know that is Your great desire and aim;” but we can also pray “Lord, thwart the plans of the wicked, reveal them Lord, and let their plans fall and create chaos in their midst so that Your people and Your righteousness will prevail”

You might look at Psalm 35 as a model for this kind of prayer. Providentially, this was the Psalm read at the First Continental Congress on Sept 5, 1774. It is still applicable today.

Section Three

What Was Targeted and Rebranded And how Counter Culture Attack Groups Were Formed As Enforcers

Overview

Marx's and Mao's long march to destroy America focused on determining what parts of our society had to be targeted, undermined, destroyed, then rebranded. It didn't take them long to realize the strength of our nation. The first target of Communism is best explained by this statement from Clay Christianson a professor at Harvard talking about his discussion with a Marxist Chinese Economist from China

Clay Christianson said this:

"Sometime ago I had a conversation with a Marxist economist from China, he was coming to the end of a Fulbright fellowship in Boston. I asked him if he had learned anything that was surprising or unexpected.

And without any hesitation he said, 'Yes, I had no idea how critical religion is to the functioning of democracy. The reason why democracy works,' he said, 'is not because the government is designed to oversee everything that everybody does, but rather democracy works because most people most of the time voluntarily chooses to obey the law. And in your past most Americans attended a Church or Synagogue every week; and they were taught there by people they respected...Americans followed these rules because they have come to believe that they weren't just accountable to society, but they were accountable to God.

The Chinese Marxist lamented that, as religion loses its influence over the lives of Americans what will happen to America's democracy. Where are the next institutions that will teach the next generation of Americas that they too need to voluntarily choose to obey the laws.' Because if you take away religion, you can't hire enough police."

The video by Clay Christianson can be seen at www.ServeGodDefendLiberty.com on the videos page.

The Communist Chinese, from that review above, knew that if you remove religion as the main source of reference for American's behavior, you can

undermine the American society, destroy the American way of life, and transform America and take control over its government and people.

The USSR Marxist understood this as early as the 1940s and began to infiltrate the churches through the seminaries; placing communist and alternative lifestyle individuals into the church system. Their goal was to use these infiltrators as the means to distort the teachings of the Gospel, to undermine the respect for the clergy, and to paint the Church as an out of touch representative of what God wanted for His people.

But to take down the Church, Communist would need to destroy the companion parts of our society that were part of what made trust in the Church so strong. The Communists needed to also undermine our culture, education, and to destroy confidence in our nation's citadels like schools, courts, medicine, government agencies, and destroy all trust in elections.

It also meant they needed to take away the feeling of safety and liberty by causing trouble in the streets and remove of property ownership and the right to keep arms.

You can certainly see by what has happened how they did that. They, the Communists, transformed America society through promoting alternative lifestyles, supporting the sexual revolution, and making everything America, racist. This was designed to make the American way of life seem evil and corrupt. But in reality, it was the Communist transformation tactics and lies that were corrupt.

For all this to work, Communist needed to infiltrate our education system in order to undo our history, teach children their faith and their parents were wrong on everything, that the earth was the new heaven to be protected and that socialism was the new religion, and that government was the new god. Over the last fifty years plus, that transformation has now produced a few generations who have been educated on lies.

To make all this happen; the Communist needed allies within our government and education system as well as churches. When the USSR collapsed, the Chinese were just rising to power. They took the USSR's ideas but use them not to destroy America but to transform it to become a satellite extension of Mao's desire to rule the world. They found many willing traitors within America to support their efforts.

Let's look at those groups and how they have helped to transform America.

Mao's/Globalist American Attack Groups to Betray and Destroy America

One of Mao's methods was to cause fear and destruction in the streets of America. However, China couldn't lead this effort, they had neither the strength, money, or forces to enter the United States and disrupt our society. So they funded, and used traitors within our nation to help fund the destruction of the education system in order to train our children to hate their nation, to be in a constant state of revolution against our country, and to cause fear and destruction in the community. All for, the Communist said "the greater good." But these over educated indoctrinated children, poisoned by the education system, who learned to hate their country, their families, and God; masked up, picked up their weapons and started to cause fear in the streets. Groups like Antifa, BLM, leftist politicians who let them run wild, and the media who supported them; set our nation on fire and ushered in the age of treason and false gods. If you hear the words for the greater good, run from that person.

Our side failed to realize how to separate real left ideas and actions from leftist destruction and lies. For instance the LBGTQ is a political movement. Most homosexuals just want to live their lifestyle and be left alone. LBGTQ movement, however, wants to force the homosexual lifestyle on our children, on society, and make it illegal not to do that. That's how the leftist work, mix their illegitimate agenda with other agendas, then it makes us homophobes, or racist, or un-American if we don't agree with both.

To ingrain these concepts into our children's minds, the leftist instituted education overhaul using Common Core, Critical Race Theory, and alternative lifestyles into every curricula including science, history and math.

This formula for the transformation of America was put into place and the political correct crowds cancel culture, causing fear by attacking people at home, at work, and in the streets; cause a tremor that politicians, courts, and the church shrunk from in fear. FEAR is what they wanted us all to feel and therefore relent. And relent we did.

They then use otherism tactics, you remember, making a group of people the enemy by their very beliefs, then targeting them for violence and suppression of their beliefs. Until we can shed the fear, stand with courage for what we believe, until the Church leads in the fight against this political and spiritual warfare; we are stuck in the box the leftist have created for America. The box that says resistance if futile, surrender or die.

The left's tactics were best laid out by the Colorado Democracy Alliance (CDA). Their motto: Compromise inhibits victory; the CDA concluded this:

- 1) Root cause of leftist defeats was the Democratic Party itself.
- 2) Build extra party infrastructure that duplicates DNC within the DNC which rebuilds the party from within by taking over the agenda and platform.
- 3) Create new 537, 501, 503 non-profit organizations formed to run voter education, registration, issue awareness.
- 4) Build a ground game around these groups and organized labor and united progressive organizations to help transform Colorado to blue state
- 5) Build a permanent infrastructure within government as a counter state
- 6) They placed committed personal at senior levels in government (some call the deep state but really it's a counter state.)

Republican Assistance to the Left's takeover

By obstructing Trump's ability to make appointments and recess appointments the establishment gave the leftist the ability to institutionalize Obama's 5,000 people into the deep state; forcing Trump to have them in his organization. The Republican leadership should have recessed so the appointments could have been made.

Republicans compromised wasn't for the good of the nation, it was for the good of the politician who wanted to survive and avoid the cancel culture. So the Republicans went along to get along. All talk, little action. They acted like they too wanted Trump out.

Conservatives used their social media sites to talk, among many false flags: The Kraken will overturn the 2020 election, Hunter Biden's lab top, the military has control of the election process and will put Trump back in office, the President isn't Biden but a double playing Biden. Conservatives have become focused on the fabrications (intelligence work to put a lot of lies into some truths) to redirect our efforts. We fell for it. In essence they set our agenda for us; we bit and it turned out to be suicidal. Forget the fabricated stories and look at what was done and how to counter it.

Section Four

Start the Reclamation at the Local (Tactical) Level

A) If the Church does not lead, America Falls

To best way to understand why if the Church does not lead America will fall; is to understand the basis on which our Founding Fathers formed our nation. They formed it, per John Adams, "Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other." The whole of our founding is based on the morals of the founders Christian religion.

So what instructions do we have on morals and religion? It's best heard from those in our church's history who fought the evil empire in times that most certainly must have seemed to be the end. We should listen to their words. Who best to tell us about those church leaders than those who have continued the fight for religious liberty, and to defend the church and to spread the true meaning of the scriptures. We must first understand that this must be a unified Christian led effort. If we are fighting other Christ led Christian denominations, we have no time or strength to fight our real enemy.

Protestant Voices from Well Versed

"Throughout this book, I am not calling for political activism, although political activism is a very good thing. Merely being politically active means supporting a candidate and maybe voting every two years. I am calling for something so much more exhilarating, foundational, and transformational, and that is what I call Biblical applicational, which is the actual practical understanding and application of scriptural solutions to today's most challenging social and political problems." – Jim Garlow

A Catholic voice from the United States Grace Force manual:

For Pope Leo XIII said to be a prophet means we are "born for combat":

"To recoil before the enemy, or keep silence when from all sides such clamors are raised against truth," he warns, "is the part of a man either devoid of character or who entertains doubt as to the truth of what he professes to believe." The only ones who win when Christians stay quiet, he

says, are the enemies of truth. The silence of Catholics is particularly disturbing because frequently a few bold words would have vanquished the false ideas. "Christians are," Leo continues, "born for combat. It is part of their nature to follow Christ by espousing unpopular ideas and by defending the truth at great cost to themselves."

Pope Pius X would use the military term, shock troops to describe the most necessary need of our time. Shock troops is a military term that refers to infantry formations, along with support units, created to lead an attack. Pius X was resolute in acknowledging we are in spiritual warfare as he called for an uncommon valor willing to be the tip of the spear, the vanguard, warrior saints unafraid to lead.

We are in a spiritual warfare against powers and principalities. But evil uses the blood and flesh agents to spread lies, hatred, and discord at every level of our society. We must confront these agents lies with the Way, the Truth, and the Life of Jesus Christ.

We must first fight with love. To love your enemy does not mean to surrender to their will, or deny our faith; it means we do not act in hatred but with the hope in love of the salvation of all; even those who would harm us most.

Having said that, we must stand firm against all actions and those who would destroy the church, led souls to evil intent, and attempt to destroy our nation, our culture, and our society.

The effort to transform America started with the effort to infiltrate and transform the Church. Leftist had to undo the culture, morals, and ethics of our society to have any chance for success. The church plays a large part in those areas as well as in supporting the legal system. Without the Church, the take down of America became easier. The Church is the key to restoring everything. This effort must be led by God.

It is up to the laity, the church body in the pews, to speak to the pastors and priests and to get their support to speak out in the public square. You must not only seek the help of the church leaders, you must stand by their side in support and turn out when the church needs you to stand with them.

B) Election Integrity Is a Must

Without fair and honest elections the Republic will be lost! Marxist understand this and it is how socialism/communism controls a nation. As Joseph Stalin said, "I consider it completely unimportant who in the party

will vote, or how, but what is extraordinarily important is this – who will count the votes, and how.”

The paradigm has shifted even beyond this. And this is so Important. It is no longer “who will count the votes” it has become “who controls and fills out the ballots”

KEY – Those who control the ballots are those who also control voter rolls. They are the ones that determine who wins elections.

“If you do not embrace, with both arms, that Leftists and RINOs use a multi-faceted, 40 years-in-the-making, industrial-scale voter fraud system, centering on voter roll tampering and manipulation, aided by elected officials, NGOs, protected by the mainstream press and conservative controlled opposition, you cannot be part of its remediation.” – Jay Valentine

Through a new technology of Fractal Computing it has been determined that there are literally tens of thousands (into the millions in some cases) of “free floating” ballots based on corrupt voter rolls that can be used at any time to produce a different election outcome.

This has become the key tools Progressives and RINOS have used to transform America.

So a CRITICAL first step is to aggressively work to clean up voter rolls at a county level so BALLOT fraud can be stopped in its tracks. New technologies are coming online that allow every day patriots to do this at a county level in real time. Currently, the voter rolls of all 3,000 counties of the United States are being loaded into a Fractal Computing system and key states are being targeted for deployment. www.Omega4America.com

Additionally, we need to place real American Patriots in position to work and monitor the polls at all levels as an additional safe guard for free and fair elections.

The Tactical (local) level must work with the Operational (State) level to for corruption free elections and laws that support them.

If any member of your party, either running for public office or a leadership position, does not make this priority number one, find new people to support.

Your constant efforts with your State’s legislature to write laws that protect the elections and each ballot is critical to preserving our Republic.

Just a side note, if election districts can't finish the count on time, but somehow keeps finding extra boxes of ballots or voter memory cards, it's a good indication that something nefarious is going on. Without honest elections you get corrupt governance.

Elections Step One: Clean up Voter Roles

As stated above, new technologies are coming online that are going to be very effective in ferreting out voter roll corruption.

An additional action step that can be taken now is to get rid of Outside Political influences that manipulate our voter rolls while pretending to protect them.

The Electronic Registration Information Center (ERIC)

ERIC is one of the non-profits that Socialist/Democrats use to assist States with their voter rolls. ERIC says they are ensuring voter rolls are accurate and voting process are accessible. Colorado, Delaware, Maryland, Nevada, Utah, Virginia, and Washington started the center with the help of the Pew Charitable Trusts. Although the Pew Charitable Trusts started out as a conservative group, it has moved consistently left and supporting leftist ideology. ERIC is supposed to help identify inaccurate and outdated voter registration. ERIC is in 25 states

Alabama, Alaska, Arizona, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, Nevada, New Mexico, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Vermont, Virginia, Washington state, Washington D.C., West Virginia and Wisconsin and growing.

As you can see the states with a lot of trouble with ballots are in that group. So the first action should be to get your State out of ERIC.

CAIR (Council of American-Islamic Relations)/ Interfaith Movement

CAIR does not like America, our faith or our form of liberty. The interfaith movement likewise is a social justice leftist movement not a true faith movement. In our view you must work on getting your State government and operations away from these political group movements if you are to be successful in having honest discussions on issues and safe and uncorrupted elections.

Step Two: Work at the Polls

Locally - The only way to insure that counting the votes is an honest action, is to be part of the voting apparatus and the counting of votes. To do that

you have to understand the laws and rules for polling locations and jobs, work at the polls, and oversee the counting of votes. It is essential that patriots be part of that process. Find out how you become part of that, apply, get others who are like minded to apply. Then stand your ground at the polls. Be ready to call in the cavalry if things are going sideways and be ready to file lawsuits and report to the judiciary to seek whatever legal actions are possible. LEARN THE ELECTION LAWS, and then you'll know what to do at the polls and what needs to be changed.

Step Three: Improve the Voting Rules and Regulations

Statewide – Work with other Tactical (local) groups to accomplish an additional important steps; fix the laws. This fix must include severe penalties for voter and election fraud.

Fix One: Pass voter ID laws. We must stop being intimidated by cries of “it’s racist” or it’s for “voter suppression.” It’s none of those things. Voter ID is simply a process to make sure qualified US citizens who are registered voters are the only ones voting. The only votes suppressed by this law will be those who are illegally voting. Notably, this is a common best practice in countries around the world, why not the United States.

Fix Two: Stop early voting. One of the best ways to stop harvesting votes and creating illegal ballots cast by ballot harvesting groups; is to stop early voting. Make election day a national holiday. Make sure two days before election day each location has all the supplies it needs without running out of ballots, or electricity, and that all the machines are in working order. Notably, France and other Western Democracies have “Election Day” not “Election Weeks”. If the United States is to be a world leader in Free and Fair elections, why have we moved away from “Election Day” voting.

Fix Three: Limit who can submit absentee votes: Work for a law that says all absentee ballots must be filled out at the department of elections so that they can verify the person is a registered voter, is who they say they are, and that they are not prompted on how to vote. The outside of the ballot is then signed by the voter and notarized by the department, and place in a secure location. Those ballots must be counted the day before the election, but the count not released until the polls close. The only legitimate absentee balloting should be for those who are out of the country; or someone who is medically unable to be at the polls. If a ballot is not signed by the voter and notarized it will not count. Arrangements can be made for the Department of Elections employees only, to deliver an absentee ballot to those who cannot physically go to the Department of Elections.

Fix Four: Voter Registration: All voter registrations must be done one month prior to election day. This is to limit fraud.

Fix Five: Stop Mail in Ballots: A mail in ballot is in a constant state of “not being in the chain of custody.” You cannot tell who filled it out, if it was even delivered, and can easily be used to make false balloting to gain the votes a candidate needs to win. In other words, a candidate is losing so their party fills in a bunch of prior mailed in blank ballots so their candidate wins. The left is more focused on ballots than on election day. As long as mail in ballots are used, we need to start identifying those who we can get ballots to and have them vote before election day like the left does. This doesn’t mean we don’t focus on election day, it means we need to get those who don’t normally vote to do it like the left does, mail in ballots. This is one of the keys to election success.

Fix Six: Severe voter/election fraud penalties: There is no bigger threat to our national security, our culture, our society and our Republic than voter and election fraud. It is a easy way to corrupt the vote and transform or conquer America without firing a shot. So the penalties for both voter and election fraud must be severe. Ten years in prison, no parole, for voter fraud, and twenty years in prison, no parole, for election fraud.

Fix Seven: Select Incorruptible Voting Machines: No voting machines can have a modem, be connected to the internet, or be able to add votes other than by one voter voting at a time. There can be no way a vote can be changed or manipulated by anyone. The voter must have a way to make sure their vote is correct before pushing the vote button. Once that is done the vote cannot be changed. They must be a safeguard in each machine to make sure a vote cast goes to the candidate selected.

C) Solve the Political Party Problem from Inside the Party.

Leftists knew that to become a force they had to infiltrate and take control of the Democrat Party. So they created a party within the party. They used such issues as global warming, a woman’s right to choose, same-sex marriage, transgender issues, and made LGBTQ a political movement not a sexual alternative movement. So by virtue shaming, forcing conservatives to back pedal, and focusing their rich donors on only funding these issues and candidates who supported them, the left has completely taken over the Democrat Party. They now have moved to the next step of making it the Socialist Democratic Party and destroying our Constitution and the rule of law.

Step One – Express the Serve God – Defend Liberty platform within the Republican Party: This means forming a platform and present it to the party as what our movement will support. When the party says America First is a nationalist movement, remind them it is a populist Constitutional

movement, based on patriotism and loyalty to the citizens of the United States and the rule of law. To change the party's "establishment first mindset" to the Constitution and the people first "mindset", we have to stop using political speak and go directly to the truth of what we believe. We must be the Serve God Defend Liberty Movement within the Republican Party.

Don't let them shame you, virtue signal you, or allow them to use their weapon of political correctness or the Marxist policy of social justice to intimidate you. Remember social justice was first used in the 1840s as a formal concept rather than a material one. It was used to support the concept of justice not a new worldview. The left made it a material matter to apply to all things and change the meaning of "equality under the law" to "equality outcomes" that only they can control. This is now what they call equality. In other words, the Communist view of governance.

The original concept of justice is divine and as such we must present and defend against the Marxist form of social justice by using the Divine Justice as articulated in the Bible. In essence a Godly look at how we treat each other.

Step Two – Lead at the Most Local Level - Become A Precinct Leader

There are over 3,000 Counties in the United States. Attention has turned to this level of government as the best place for Tactical Impact.

To break it down further, within counties there are even smaller political units called **precincts** where you can have the most tangible impact. **The precinct** is basically the voting jurisdiction you live in. It includes all the neighborhoods that feed into your election location on election day.

For instance, the County of Mecklenburg, NC (that contains the entire city of Charlotte, NC) has over 150 precincts (voting jurisdictions). In areas with smaller cities, there might be 20 to 40 precincts in a county. In the most rural areas there might be 3 to 5 precincts in a county.

It is at this precinct level where you can step up and lead and yield significant influence. In total there are over 400,000 precincts in the United States. Half of these precincts do not have a Precinct Leader.

If true Patriotic Americans stepped up and took leadership in these precincts, not only could they develop neighborhood level movements of patriotically engaged citizens, they could also exert influence and even guide the direction of the Republican party at a neighborhood level, city level, county level and state level. Through this process ultimately the national political party is changed.

Dan Schultz calls the Precinct Leader “the most powerful office in the world”. To get a more detailed understanding of the power of the Precinct Strategy take a look at his work at PrecinctStrategy.com.

Serve God Defend Liberty, as a faith based movement, has some additional components to the Precinct Strategy that will even further its impact and accelerate the spread of liberty.

One action step you can take now is to reach out to your County Republican Party and find out if your precinct has a Precinct Leader. Most likely it will not, so you can volunteer to step up. Or if there is a leader, you can fill the role of Vice Chairperson and exert influence from that role.

Once in that role, we recommend getting a map of your precinct and “decoding” it. Drive around it. Assess how many neighborhoods, apartment complexes, schools, churches, and businesses make up your precinct.

As you go about this process, look at your precinct with spiritual eyes. God has assigned you to live in this place for “such a time as this”. What do you observe? What does God want to do in your precinct? Pray for your Precinct.

Take a look at your precinct from even a small level – the neighborhood level. YOUR neighborhood level.

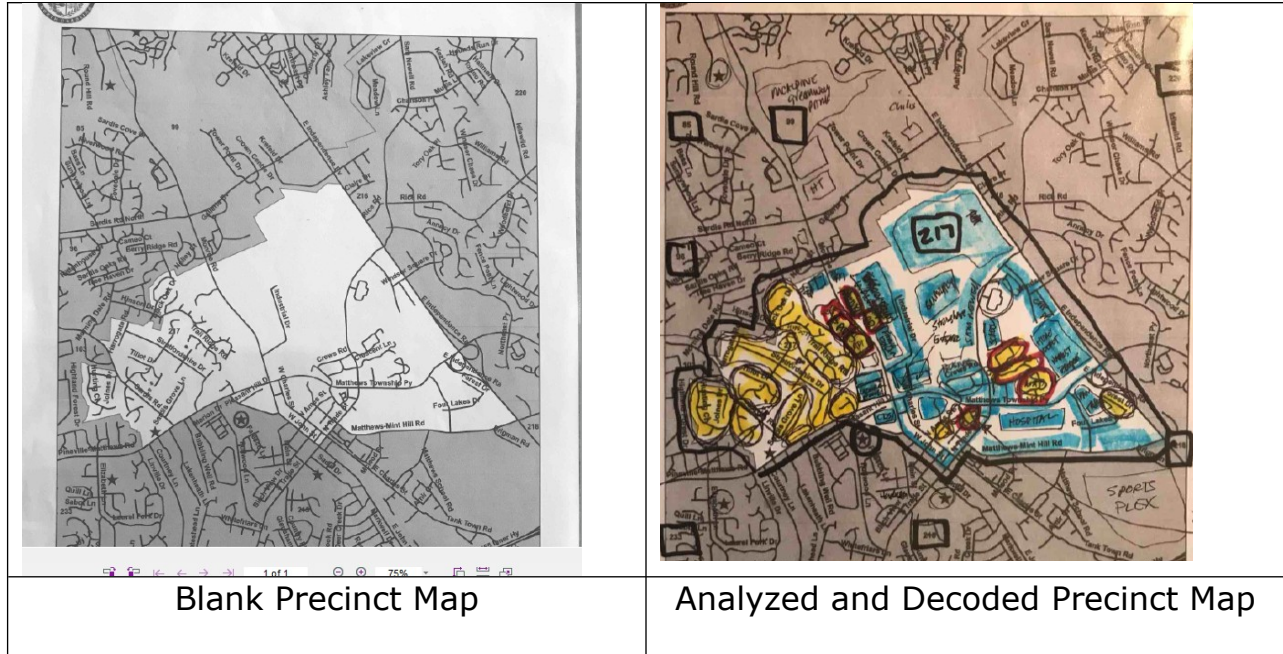

Take steps to connect with and know your own neighbors.

Then, take a look at how many total neighborhoods are in your precinct and see if you can think of individuals who live in these other neighborhoods. Connect with them and see if they would come along side you and become leaders in their own neighborhoods. If you do this, you will be able to assemble a team of leaders in your precinct, that are spread out through all the neighborhoods, that have a calling of caring for their neighborhoods and mobilizing them for action to advance good local government.

As a visual representation, below is an image of a blank precinct map and its boundaries. After analyzing this map, it was discovered there were 8 neighborhood clusters (yellow), 10 apartment complexes (yellow with red circle), a lot of businesses, warehouses, and light manufacturing (blue). Also (not shown on the map) , a High School, a Middle School, a Elementary School and more than a dozen churches.

These churches are also key opportunities to share about the Serve God Defend Liberty movement and the Biblical Citizenship training we provide.

Knowing your precinct well, praying for it, striving to raise up neighborhood leaders, and connecting with churches in your precinct lay a foundation for tactical impact.

More details on the Serve God Defend Liberty approach will be forthcoming, but for now a great action step is to become more familiar with the general precinct strategy concept at www.PrecinctStrategy.com .

~ Craig Seibert of the Christian Civics Training Initiative and a NC Precinct leader

Important Points to Remember :

There are some important points to know and adhere to if we are to be successful in the Reclamation of America.

1. **We are a nation of laws with a Constitution that directs us.** If we violate both for our objectives, we lose all moral authority to condemn others who do the same to take down America
2. **Violence is out of the equation.** We do not initiate violence, nor is it in anyway part of our beliefs. We do protect our groups from violence and should always be prepared for other anti-America groups committing violence against us. That is why we should always talk with local police/sheriffs about our events, their purpose, and request they be our protection against violent groups.
3. **The Reclamation of America program of the Serve God – Defend Liberty movement is a return to our Founding Fathers vision** of a Republic. In the words of John Adams

Quote by John Adams

While our country remains untainted with the principles and manners which are now producing desolation in so many parts of the world; while she continues sincere, and incapable of insidious and impious policy, we shall have the strongest reason to rejoice in the local destination assigned us by Providence. But should the people of America once become capable of that deep simulation towards one another, and towards foreign nations, which assumes the language of justice and moderation while it is practicing iniquity and extravagance, and displays [229] in the most captivating manner the charming pictures of candor, frankness, and sincerity, while it is rioting in rapine and insolence, this country will be the most miserable habitation in the world; because we have no government armed with power capable of contending with human passions unbridled by morality and religion. Avarice, ambition, revenge, or gallantry, would break the strongest cords of our Constitution as a whale goes through a net. **Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other.**

This is why the Church must lead this movement and why you must try to engage and get engaged the pastors and churches in our communities. Without their involvement, we cannot hold to a moral and religious path that insures true divine justice and a non-corrupted government.

D) Establishing Local Leadership

Without a structure of what must be done, coordinating the efforts, and identifying the most areas of concern, we get another January 6th. That is, groups not really part of our group attempting to entice our group to do wrong. It doesn't mean that one group has control over the other; its that each group must be on the same mission purpose and direction or we start chasing events rather than rebuilding citadels. Our founding infrastructure has been compromised and we can't fix that without unity in what should be done.

The structure depends on how many operations you want to take on. You'll need a leadership team, independent team leaders and the ability to stay in your fields of operation. It could look like this:

- Leadership Team (with Clergy)
- Church team Leaders
- Field Operations Team Leaders
- School Board team,
- Local County or city Council team
- Communications Team, Etc.
- Election Intergrety

This will set up a system where each team can ask and get support, communications with other teams and other state's efforts, and the Church leading it all with God as CEO. Do not underestimate the importance of this. The leftists coordination and support was all structured on this format. It gave them the ability to rally to action within a hours notice.

E) Never Underestimate the Enemies of Freedom

Never underestimate the resolve, intelligence, or capabilities of evils alliance. They do not fear the law, they are well funded, their efforts are well planned and implemented; and mostly they don't care if you know what they are doing. They have the support of the media, government agencies, education system K through College, and the courts have not seemed willing to stand against the obvious violations during elections.

They also have a coalition that sticks together no matter what. That means that their non-profit groups don't worry about money because the left's richest will support any group who remains loyal to the mission or the politically correct attack of the month. Our side needs to take a lesson from their playbook and start focusing on the mission and standing as a unified coalition defending the whole Bill of Rights. Not just a 1st Amendment or 2nd

Amendment group but a Bill of Rights and Constitution coalition who shows up in mass to Serve God and Defend Liberty.

The left's unity will out maneuver the right's tactics because we do not defend our flanks or work together to preserve our liberty. Until we do, we will always be outplayed on election day and on key issues. The left boycotts those who are against them, we support the people like social media, companies, and entertainment that work against our culture, society and country. It's time we sacrifice a little to gain a lot. Stop funding the sources used to take down America. (see - <https://1792exchange.com/> for a list of companies hostile to freedom)

F) Strategy to win school board, and county Councils, etc.

The transformation of America started at the local level. Again we say, it's the level that we most also start if we are to see the Republic our Founders designed, and to see the America we grew up in. Winning at this level is not only key but can be much more successful than what we've seen at the national level. We must realize that these local level political positions are the feeder grounds for politics at every level.

Step One – Start with the school boards. It is critical to remember who you are talking and what you are talking about. You are not talking to the school board members you are talking to the families in the room and the families signing in on Zoom. As you are talking about our children. Yes it's about the curriculum, but it's about what the curriculum is doing to the children: how it is hurting them and their educational growth; how it is grooming them for the sex trafficking industry and pedophiles; how it is turning them against their parents the faith and their country. Spell it out. Don't attack individuals on the school board; attack the whole body and the system that allow this to happen. Why because the members of the school board who don't speak out about the damage to our children are equally as bad as those who poison education.

Step Two – County and City Councils. The same process above works for these councils as well - except talk about what the law and edicts the councils are doing to home values, heating and cooling homes, escalating crime and hurting families. We must point to root causes. Copy an energy bill from 2016 and one now show the public how that has escalated. Talk about taxes and how their overspending has harmed the families ability to even just keep even. Keep a close eye on your town forming a Diversity, Equity and Inclusion Strategy. These strategies are steeped in Cultural Marxism. You can find resources on this at www.ServeGodDefendLiberty.com and www.unconstrainedanalytics.org

You see the picture and you know the local issues use them and win over those who would not normally vote for you.

G) Rebuilding education

You will need the courage to stand before all meetings about schools and read some of the filth they are asking our children to read. You'll have to read examples of math and science (politicized) that they are trying to get our children to follow. You will have to be ready to remove your children from public schools and put them into other methods of teaching them. Enhanced home schooling that combines churches who will have resources from their church to help with lessons via Zoom. And have sports programs and outings so children can socialize and have classes with other children.

You have to promote Empowerment Scholarship Accounts where the money goes to the student to use for the education process that best fits the child's needs, not the State's political agenda. Point out how many legislators have their children in non-public schools and how many don't have children. Never point this out by name on numbers. Putting out their names only hurts the children of those legislators and school board members. It's the system we are exposing and the hypocrisy not the individual. We are not a copy of the leftist cancel culture. We are the ones who want all children protected and to have the best quality of education.

For more information go to www.serveGoddefendLiberty.com and submit a contact request for more information.

H) Develop your own Candidates

The best approach to turning your political party around is to being a party for the people and for America is to develop your own candidates. Find those persons who not only present themselves articulately, but also with courage, standing their ground, and speaking the truth. And then when elected will do what they say they will do while campaigning. We have to train these candidates on the issues and how to stand and defend, not back up from, what they believe. Again if you need help with training of candidates contact us at the www.serveGoddefendLiberty.com website and we will provide resources for you to contact.

I) Messaging, it's always Messaging.

Voters are tired of hearing elevator speeches and sound bites. They want to know what you will do, how you will do it, and when you will do it. Take the example of Newt Gingrich's first 100 days agenda. And then stick to it.

Stand your ground and defend it. Don't let the other side label you. You define who you are and what you believe. Don't use the other sides terms and conditions, speak in clear and honest terms using the truth and terms that are not created by the other side. Some call them the Woke side. They are really the un-woke side so don't use their term woke, use what they are leftist.

You must find messaging that resonates and inspires voters to vote for you. A bland and repetitive speech is the cure for insomnia not for turning out voters.

Section Five Building The Teams

Selecting the team

Selecting your team is one of the most important steps for local operations. If in our Founders vision of America, and the creation of our Constitution, was made only for a moral and religious people; it seems that the only way for a reclamation of the America dream is for it to be led by a moral and religious people. When selecting your team, you must find those who put God, family, and country first in their lives. It will have to be a fully representative team of the make up of your community with no other mission but to serve God and defend liberty.

The most successful teams are ones that have a leader, and a ton of workers ready to do what it takes to save our churches and our nation. To that end we have to put the teams together based on the fire in each of our team members belly. And the teams must then be focused on their each teams mission. If the team keeps trying to bleed their efforts into other teams activities, the focus will be lost and the mission compromised. Stay on target until the group's mission is completed.

The team must consist of dedicated, focused, humble folks whose only mission is to Serve God and Defend Liberty. This is not about personal glory or raising funds; it is solely about the Reclamation of America. You need people who understand that and who will stick to the mission.

Survey the Community

The best way to find out what the community is willing to support and help you defend, is a simple survey. Don't do a leading question type survey like what is your most important issues: A) Immigration, B) inflation, C) Border. This leading question type survey is usually called raw meat survey's to get the community to focus on political solutions to issues parties want to raise money for.

Instead do a simple survey: What are the five issues you feel must be fixed now. Are you willing to serve on a team to fix them? By the answers of the participants you will know if you have workers to make change on very specific issues.

Issues not on the Community's Survey

The other part of this will be the issues the survey doesn't reveal but you know must be addressed. That is where the leadership hand picks teams to address them. You can then introduce these issues to the community as other programs you're working on to help fix the problems that and to support the issues the community wants fixed. We need to build legacy programs where what people make and build are passed on to their children. That is how communities stay safe and productive.

Section Six

Removing Other Obstacles

Replace Politicians with Statesmen

One of the greatest obstacles to the reclamation of America is the very ones we have chosen to lead us, politicians. We have far too many who are elected in local, state and federal government who are not the statesmen our founding called for. The new breed of elected officials are those who have been attracted to the power and financial perks of getting elected to public office. What we need are statesmen. They are leaders who serve those they represent, protect our liberties, serve for a short time and then return to private life.

We can't wait for political parties to provide statesmen, it's too late for that. Political parties have become part of the system meant to support population control, loss of property rights, forced medical treatments, destructive woke policies, and indoctrination and exploitation of children.

So how do we get statesmen? First here is the definition of statesmen: a wise, skillful, and respected political leader. The term statesmen include all male and female politicians. Since we are not going to get caught up in the woke's movements desire to remove all things that have men or male in them, we will stick with the terms as they were meant to be.

Now how do we get more statesmen in government? We start by finding men and women in our communities who support our country's Biblical worldview, who believe in the true meaning of the Constitution, who are willing to serve for a short period and help to mentor those who follow them. We seek people who support the limited role of a federal government and who supports State's rights. We then begin a training program to teach them how to respond to the issues, defend what is right, and knows that two terms in government is enough. Being elected to office is not a life's work, it's a short term service to God and country.

Remove Ego, Organization, and Who gets Credit

If we expect politicians to be statesmen, we must be patriots. Patriots don't defend God and country to build or feed their own goals and objectives. They don't put their organization first or only get involved when they get credit. They enter this battle for the mission of Reclamation of America and preservation of our Church. That is the only reason we should be in this fight. Any other reason like filling our organization's coffers, or seeking a

cover story or our efforts, or to feed our ego; only gives our enemies the ammunition they need to take us down. Like God told us we are to be humble and faithful servants. Like of Founding Fathers we are not in this for personal gain, but to save our nation.

Section Seven

Messaging to undo the Woke Narratives Rebranding of America

Overview

We must realize that we have lost every major battle for our society and culture in the last 20 years. The leftist have captured our corporations through ESG (environmental, social, and governance) initiatives. The leftist have turned these corporations into agents of socialist/communist/ globalist to undermine and destroy America. The leftist movement has done the same to education, medicine, government agencies, etc, etc. etc. This doesn't mean that the war is lost, it means we better learn how to combat this political warfare or else.

One of the great leaders in counter insurgency was Lt. Gen. Samuel Wilson. He coined the term counter insurgency and learned so much about this through his working for Colonel Edward Geary Lansdale. The following was taken from the book General Sam by Drew Prehmus.

Landsdale believed in two things:

1) Our Founding Fathers bequeathed us a system of government that was better than any the world has known. And he believed that with proper instruction, education, and understanding, the system could work for any culture.

2) Sam Wilson was impressed by Lansdale's observations that in many impoverished developing nations, in the world, poverty, illiteracy, and disease are so great that the only viable institution is the army. The army can play a role in either oppressing people or making the soldiers their brothers by taking positive actions – uplifting, helping, teaching, healing, and harvesting crops. Landsdale argued for the optimization of all the potentially positive kinetic energy that an army can represent if thus employed for the good of the people. Sam Wilson was deeply impressed by his [Landsdale's] observation on the army as a catalyst for good.

In response to the first (1) observation above: – Proper Instruction and education on our founding documents, here is a link to a free course on Youtube called **America's Founding Up Close and Personal**. It covers our founding principles and documents in a unique and inspirational way.

American History – Up Close and Personal – Play List

https://www.youtube.com/playlist?list=PLfQCIndyMj4_uJmOqRUDze3VMe7f3YKcY

As for (2) above, the question on will America's Armed Forces help the people and be a catalyst for good, or will the socialist completely turn them into agents of socialist warriors to finish the transformation of America into a socialist/globalist/communist society? The jury is still out on this. But one thing is sure; as Christian Patriots we can work in our communities to be that agent for return to our founding principles and culture, and that can return our society to its moral and religious roots, help our communities through this dark period of our nation's leftist attacks, and rebuild the institutions we once thought of as citadels of freedom and faith.

How? Lansdale said it, by positive actions that are uplifting, helping, teaching, healing, and harvesting crops and we would add, saving small businesses and the middle class.

Lastly, the only point we would add to Lansdale number 1) above is that what John Adams said, "Our Constitution was made for a moral and religious people, it is wholly inadequate to the government of any other." That is what we need to become again.

It is time to stop allowing the left to turn our language upside down. It's time to stop using their terms, definitions, and destructive path to control the conversation. It's time to return to the terms used before woke developed their own terms, words and slogans which became a weapon against all that is good.

Leftist turned Lansdale's *uplifting, helping, teaching, healing, and harvesting crops* ideas into a fear and hatred, fear of global warming, hatred of individuals who question socialist answers, and enforced with internal violent forces that destroy our society and form of government; and political correct forces to punish anyone who does not agree.

The left used our founding against us. Look at this video to understand what happened.

Cultural Revolution - Total War Declared on God, Total War Declared on You – 17m

<https://www.youtube.com/watch?v=7dOgRcg5GgY>

The left uses dialectics, as a means to destroy the truth and replace it with false narratives, to cause division, and build distrust. We need to return to the point before the dialectic misappropriation of our language, ideas, and principles were used to undermine the truth. If you need help in developing

a counter dialectic campaign to combat the lefts dialectic narrative attacks, to produce real policy that serves the people and a messaging that wins the hearts and minds and brings others to see the truth; please contact us at www.ServeGodDefendLiberty.com.

Remember, our response to the left's narrative is the truth. Be honest, direct, and show how what you propose to help the community, protect our families, save our nation, and rebuild our culture will work. Give them details on how we will do that, and not raw meat soundbites that say nothing except send money.

Our job is to counter dialectics. We do that by not using their terms and concepts but by returning to our founding documents and the language used before woke enter the scene.

Our messaging has to focus on not only the truth, but what has gone wrong, why it is wrong, what we have to do to counter the wrong (give details) why it was better before woke, and how undoing woke will rebuild our communities, return prosperity to our families, and make America a safe rule of law free nation. As we said if you need help, just list what those needs are and send to us for some suggestions and help at www.ServeGodDefendLiberty.com.

Section Eight

Matching Action for Action -AKA The Lefts Battle Plan And how to Counter it

What Contributed to the Left's Transformation of America And what the Republican Establishment lack of action to counter caused:

- 1) Enabled the left to undermine election without any fight to correct the corruption.
- 2) Allowed un-constitutional actions to control the medical industry's responses to Covid (masks, vaccines, denying prophylactics).
- 3) Weakly addressed social media's suppression of free speech, while allowing a corrupt bias to be set by the false narratives.
- 4) In particular item 3 permitted direct attacks on private citizens and property ownership
- 5) White House response to the insurrection in the streets by organized leftist (Antifa, BLM) supported by China, funded by Soros and others, was weak and ineffective. But allowed an all out violation of Constitutional rights to legal and peaceful non-violent demonstrations of conservative groups
- 6) Witness the merging of Maoist/Globalist/Islamic triad to undermine the rule of law with the mission to destroy the Citadels of Church, liberty, schools, medicine, government. religion and our Constitution.
- 7) Allowed political correctness and woke policies to dominate the rulings in government, courts by not exposing and prosecuting the lawlessness of these actions.
- 8) The leftist domination and successfully woke policies imposed on all American citadels including governance, the courts, and the Church
- 9) Have allowed the leftist to begin delegitimization and destruction of American culture and rule of law. Led by leftist Groups like Colorado Democracy Alliance where rich leftist joined together with one single mission, design a blueprint for winning election victories at any and all cost.
- 10)The leftist built an extra party infrastructure within the Democrat Party that duplicated the function of a political party while fragmenting the Democrat Party and the ultra-left taking control of platform and policy. With new command and control functionality independent of party leadership.

- 11) The leftist created 501 c-3 and c-4 organizations to run voter education and registration, issued awareness campaigns and attack ads. While organizations provided the ground game and ran a counter-state to take down America.
- 12) Exploited real and perceived grievances in order to induce socialized solutions by controlling the public's perception of events.
- 13) Republicans in Congress placed obstacles in Trump's path to make appointments including recess appointments thus allowing the 5,000 Obama appointees to be integrated into the bureaucracy to undermine Trump's policies.
- 14) Trump failed to rehire the intelligence officers who identified the counter state bad actors and were fired by the counter state that we call the deep state. Thereby losing his allies in the intelligence community.

Why is all this important? Because the decay of America is being controlled by forces inside and outside the government. And while we bicker over Catholic vs Protestant, Black vs White, how many genders there are, what is on Hunter Biden's lap top, the real sex of politicians, the Maoist/Globalist/Islamist have taken over every single citadel of the foundation of what made America, America.

In short while God was working to awaken the love of neighbor in us, Satan was instilling the hate your neighbor in everything. We did not persevere to the end, instead our nation is starting to look like the movie "The Purge." In that movie you are allowed for 24 hours to break any law including to commit rape and murder.

Where is our battle plan, where is God in this plan, and how much are you willing to sacrifice to stand with Jesus Christ and to do what is right?

Our Counter Plan for the Reclamation of America

How do we match their action with counter actions of our own?

- 1) Use legal methods to check voter rolls, report problems, and work with the elections department to fix the problems. Make them public if you don't get cooperation.
- 2) Challenge every un-Constitutional action by groups and government using all legal means possible. That includes the press if you can find one that seeks the truth.

- 3) Very strongly combat social media's suppression of free speech. The best way is a joint action law suit.
- 4) Defend property ownership it is one of the keys to freedom
- 5) You have to get the church into this fight. We are preparing a manual to help you with the church pastor or priest.
- 6) We must live by the moral culture our nation lived under from the beginning. Don't give in to their cultural override of what is right.
- 7) Use the chapters in this booklet to guide you to other ways to stand. We have a full Reclamation of America plan on www.ServeGodDefendLiberty.com We are there to help so if you need us contact us on the web site and leave a message.
